

Exhibitors' Opinions

"Our company produces professional cosmetics products for hair and body. This exhibition is very important because in addition to Turkey, it gathers many important countries including Russia and countries from the Middle East, Gulf countries, CIS and Balkans. With our participation, we aim to support our local distributor and also create new partnerships for our other brands. By participating in the exhibition, we get the chance to develop new connections, meet new people and see what our competition is up to. We have been attending the exhibition for 10 years and it just keeps getting better. This exhibition has an important and strategic place among other cosmetics exhibitions throughout the world."

Mr. Gianni Manzetti
Farmen Group, Owner, Italy

"Our activities at the exhibition focus on the product group of wet towels and diapers. We are here because BeautyEurasia fits perfectly with our client portfolio. It especially contributes to our client portfolio on the international market. We have been attending the exhibition for 5 years and been pleased with it. As far as I can tell, the international representation is very solid this year. The number of exhibitors is also solid. I believe that the exhibition means a lot for exportation."

Mr. Ferhat Güzelkaya
Ersulu Sağlık, Adana Regional Manager, Turkey

"Since we are a company that sells products to both domestic and foreign markets, BeautyEurasia is the true gathering point for us. The exhibition means a lot in terms of visiting our foreign visitors and local clients we cannot reach and observing the innovations. The biggest factor in our participation is to get into the foreign market. We cover 95% of the domestic market, but we consider ourselves to be weak in the foreign market. We used to come here as visitors but now we attend as exhibitors."

Mr. Hüseyin Doğan
