Reveal Your Skin!

www.mdreveal.com

Nova Pharma was founded in 2019 and is managed by people with 10 years of experience in the sector, who are well-versed in product knowledge and content, who follow, develop, R&D, are aware of the realities of the field and have an academic background.

Our company is a supporter of raw materials, develops products by bringing together American formulations with successful chemists in the market, produces and has dermaceuticals products, and is developing itself with its infrastructure. Nova Pharma serves dermatology clinics, plastic surgery doctors, polyclinics and beauty centers with its wide range of products.

In addition to being the dealer and distributor of strong dermocosmetic brands abroad, Nova Pharma follows the products of companies that dominate the world trend and is in communication and cooperation with companies that lead the sector at fairs.

It has a young and dynamic team that is eager to increase its extensive knowledge and experience in import and export, has ideas about new product production technologies, is open to development, and does its job with love.

Our aim; As one of the companies that dominate the sector, our aim is to be in business for a long time, to increase the content that will truly meet the needs of the skin with the principle of "flawless skin is hidden in the right formulations" and to increase the number of chemists we have in our organization. As Nova Pharma, we will continue to bring you all the innovative products in our sector.

REVEAL MD

Healthy and well-groomed skin is beauty, happiness, and balance. As our most basic garment, our body, becomes more beautiful, we feel better and stronger, and our life energy increases. As a result, we realize our potential on the path of life more easily.

The Reveal MD brand was created to bring the beauty of the body-mind-soul trio to light with our healthy skin. Effective ingredients, Dermatological tests, technologies, special formulas, quality production and experience have combined; a strong brand that keeps its promise, benefits from skin-treating ingredients, and offers comfort and visible results to the skin has emerged. High-quality raw materials from various countries of the world were used in the formulas developed in America. Most importantly, the Reveal MD treatment effect was formulated with ingredients based on scientific data and created with pleasure and love as a result of long-term studies!

5 Technologies and Dermatological Tests together!

Reveal MD uses innovative technologies in its products. It gently cleans the skin deeply with Enzyme Exfoliation Technology. While providing deep moisturizing of the skin with Phospholipid Technology; It strengthens the skin's natural protective barrier with Barrier Repair Technology. It offers youth to the skin with Marine Hydration Technology, which uses marine-derived ingredients. While Liposome Technology carries active ingredients to the deep layers of the skin, Plant Stem Cell Technology supports the skin's renewal process.

Reveal MD is your most reliable advisor in your search for beauty and youth with each new formula... Created with pleasure and love, this brand promises you a healthier and happier life journey by offering the care and attention your skin deserves.

HERBAL PEELING

*Meet the Natural Power of Plants,
Rediscover the Natural Vitality of Your Skin!*

Herbal Peeling aims to bring the skin to its ideal state with a 5-day skin renewal cure.

REVEAL MD Herbal Peeling is a carefully designed care method to revitalize the skin from head to toe, with a special formulation rich in algae and plants. Herbal peeling applications are a method that has provided visible responses on the skin worldwide. It contains rich ingredients such as Algae and Niacinamide and Sodium Ascorbyl Phosphate, which are used for the first time in the herbal peeling concept.

Thanks to its exfoliation properties, it gently purifies, refreshes and revitalizes the skin, giving it a healthy appearance. With the rejuvenating active ingredients in its content, it helps the skin regain its natural vitality and youth by generously nourishing it. With each use, herbal peeling pampers the skin and offers a revitalizing experience at the same time.

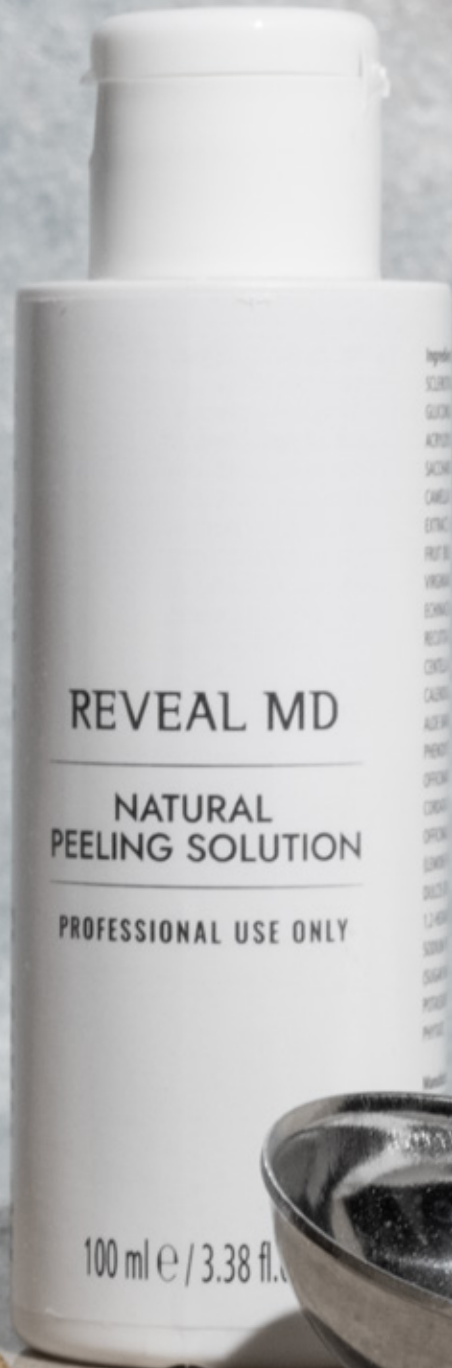

Strongly effective Herbal Peeling is designed to bring the skin to its ideal state for all skin types and conditions. It offers a wide-ranging effect method for problems found on the skin. This special care is effective against blemishes, acne, acne scars, enlarged pores, etc. Beyond its versatility in solving common skin problems, it also stands out with its benefits for more complex problems.

REVEAL MD

Oily skin balancer; prevents acne, blackheads, comedones. Effective against acne scars; helps prevent sun, birth, and age spots.

Fights against wrinkles and loss of elasticity thanks to its rejuvenating feature. It helps increase moisture levels with its skin renewing effect and prevents skin dryness. It also provides personalized comfortable care for people with skin problems such as couperosis and rosacea. This special natural content combination emerges as a holistic skin care solution that offers a wide range of benefits to provide balanced and radiant skin.

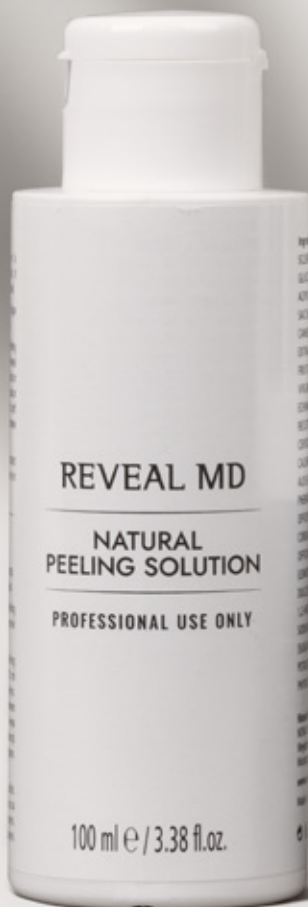

NATURAL PEELING SOLUTION

HIGH-LEVEL MOISTURE AND BARRIER PROTECTION WITH A GEL-FORM PEELING SOLUTION CONTAINING HYALURONIC ACID FOR SKIN PEELING EFFECT!

*NATURAL PEELING SOLUTION accompanies herbal peeling applications with its **19 active ingredients**.*

*New formula supported by intense **hyaluronic acid!***

A New Perspective on Herbal Peeling with Unique Contents

Plant Extracts (Green Tea, Blueberry, Witch Hazel, Echinacea, Chamomile, Gotu Kola, Calendula, Linden, Melissa, Lemon, Orange, Sugar Cane): These plant extracts contain powerful antioxidants and help keep the skin young by fighting against free radicals. Reveal MD Herbal Peeling Protocol Product Usage Order

Cleanse the skin with Clarify Cleansing Gel.

Apply Clarify Toner to the skin with a cotton pad.

Mix Herbal Peeling Powder and Natural Peeling Solution in the appropriate weight and measurements according to the care protocol.

Leave the herbs on the skin for 1-5 minutes and massage with light circular movements.

Cleanse the herbs from the skin.

Depending on the condition of the skin, apply Purifying Mask or Deep Hydrating Mask products to the skin and leave the mask on for 20 minutes.

2nd Time Apply Clarify Toner to the skin with a cotton pad.

Then apply No-Ac Purifying Cream or Super Hydrating Cream to the skin according to the skin type and care protocols.

Finish your care by applying sunscreen with ALL SUN DAY SUN CREAM.

*Offering you 4 different care protocols with a total of 27 active ingredients, Niacinamide, Vitamin C, Hyaluronic acid, **REVEAL MD Herbal Peeling Set** Reveals the Power of Active Ingredients*

Reveal Md Herbal Peeling aims to provide a healing method with a specific perspective on skin problems. Special weights of plants and solutions are used for each skin problem. It aims to structure the skin with 4 different care protocols to provide a clear effect compatible with its own problem. 4-6 care sessions can be done every 15 days.

RADIANT

Intensive Skin Repair

This versatile method is specifically suitable for intense acne, acne scars, intense blemish problems. It supports the skin to return to its ideal state. It fights against hyperpigmentation, acne, scars, premature aging signs.

Application

Pour approximately 5g of Reveal MD Herbal Peeling Powder into a bowl and add 8-10ml of Reveal MD Natural Peeling Solution. Mix with a brush or spatula. Apply to affected skin areas like a mask or, for a more intense result, massage with bare hands without gloves using gentle pressure and circular movements for 4-5 minutes. Remove with lukewarm water.

Protocol

ELEGANT

Purification, Revitalization

With herbal massage, exfoliation is performed on the upper layers of the epidermis. The skin is cleansed of dead cells, dirt and excess sebum. It aims for a lively, fresh and smooth appearance. It is recommended for superficial acne, superficial blemishes, skin renewal and revitalization applications.

Application

Pour approximately 3g of Reveal MD Herbal Peeling Powder into a bowl and add 5-6ml of Reveal MD Natural Peeling Solution. Mix with a brush or spatula. Apply to affected skin areas like a mask or, for a more intense result, massage with bare hands without gloves using gentle pressure and circular movements for 3-4 minutes. Remove with lukewarm water.

Protocol

DYNAMIC

Renovation

It helps support blood circulation and accelerate metabolic activities. It aims to increase the skin's self-renewal capacity. It offers strong effects against wrinkles, sagging, light spots, superficial acne scars and signs of aging. It energizes the skin and supports a youthful appearance. It offers regenerative care for the face and body.

Application Protocol

Pour approximately 2g of Reveal MD Herbal Peeling Powder into a bowl and add 3-4ml of Reveal MD Natural Peeling Solution. Mix with a brush or spatula. Apply to affected skin areas like a mask or, for a more intense result, massage with bare hands without gloves using gentle pressure and circular movements for 2-3 minutes. Remove with lukewarm water.

REFRESH

Refresher

It aims to brighten, refresh and revitalize the skin. It prevents dull and matte appearance. It helps to give tired skin a rested and fresh appearance. It offers preventive effects against the signs of premature aging.

Application Protocol

Pour approximately 1g of Reveal MD Herbal Peeling Powder into a bowl and add 1-2ml of Reveal MD Natural Peeling Solution. Mix with a brush or spatula. Apply to affected skin areas like a mask or, for a more intense result, massage with bare hands without gloves using gentle pressure and circular movements for 1-2 minutes. Remove with lukewarm water.

REVEAL MD

HERBAL PEELING PROTOCOL CUSTOMER INFORMATION FORM

I received information about the products and care protocols I should use on my skin after the procedure.

☐ Yes

☐ No

I was informed that after the application, the skin would be sensitive and open to environmental effects, and that using follow-up products to protect against moisture loss would result in a better treatment.

☐ Yes

☐ No

I was informed by the specialist that I should not remove the crust and flakes on my skin with my hands, and that I should not use any peeling, scrubbing, loofah, or any other peeling procedure on it.

☐ Yes

☐ No

I was informed that after the application, the skin should not be exposed to water for 1 day, and that hot water should not be directly exposed to the skin for the first 4-5 days. It is recommended to wash the skin with cold water.

☐ Yes

☐ No

I was informed that I should use sunscreen regularly for 4-6 weeks after the procedure.

☐ Yes

☐ No

I was informed not to use any products that would cause a peeling effect on my skin for 4 weeks after the peeling procedure.

☐ Yes

☐ No

I have been informed that after the application, there may be skin sensitivity, redness, mild itching, burning and stinging sensations.

☐ Yes

☐ No

After washing the skin for 2-5 days after the procedure, it is recommended to dry it with soft textured products such as a rolled towel, not with a hard towel.

☐ Yes

☐ No

Whether the skin is flaking or not visually does not affect the result of the procedure. The skin may peel slightly or heavily. This may vary depending on the thickness or thinness of the dead keratin layer on the skin. (I was informed by experts.)

☐ Yes

☐ No

The little or much peeling on the skin surface after the procedure does not affect the success of the procedure, peeling on the skin surface varies depending on the conditions of

- ❖ Individual skin texture
- ❖ Epidermal stratum corneum thickness
- ❖ Skin metabolism
- ❖ Skin collagen synthesis.

Visually, the flaking of the skin does not affect the quality of the results. Our skin can peel slightly or a lot.

☐ Yes ☐ No

I was informed about the reasons why my skin may or may not peel.

☐ Yes ☐ No

After herbal peeling protocol

- ❖ Cortisone use
- ❖ Roaccutane and equivalent drugs
- ❖ Topical antibiotics
- ❖ Botox and filler procedures

It is recommended to take a 2 week break

- ❖ Anti-depressant
- ❖ All deep and superficial chemical peeling
- ❖ Mesotherapy and filling applications

It is recommended to take a 1 month break.

I have been informed that the patient groups that will not be included in the procedure are those who have conditions such as dermatitis, psoriasis, eczema, those who use cortisone, those who are allergic to sea and sea products, those with autoimmune diseases, and those who are pregnant or breastfeeding.

HERBAL PEELING INGREDIENTS

Algae and plant extract: The cornerstone of the Herbal Peeling formula, algae extract offers numerous benefits that collectively contribute to a transformative skincare experience. Enriched with essential vitamins, minerals and amino acids, it deeply nourishes and revitalizes the skin. With a powerful antioxidant effect, it protects against free radicals, providing a supple and youthful complexion. The gentle exfoliating properties of the extract delicately refine the skin's texture, revealing a bright and even tone. In addition, its anti-inflammatory properties make it especially suitable for sensitive skin, providing a relaxing exfoliating process. Algae extract stimulates cell renewal and collagen synthesis, increasing elasticity, combating sagging skin and providing a firmer appearance. Offering effects against hyperpigmentation problems, algae aims to brighten the skin and achieve an even skin tone. Its ability to regulate sebum production contributes to balanced oil levels, making it advantageous for those with oily or acne-prone skin. With improved circulation, the extract offers a comprehensive skincare solution that renews, revitalizes and restores the skin's natural vitality, giving it a healthy glow. **Silica:** A key ingredient in exfoliation, silica provides a range of benefits to improve skin texture and appearance. Known for its gentle exfoliating properties, silica helps to remove dead skin cells, resulting in smoother skin. Its fine, non-abrasive texture makes it particularly suitable for sensitive skin, providing an effective and gentle exfoliation.

Niacinamide: Known for its versatility, this special ingredient helps to address a variety of skin concerns. Its anti-inflammatory properties soothe the skin and make it the ideal companion for a comfortable exfoliation experience. Niacinamide also helps

to improve the appearance of enlarged pores and uneven skin tone, contributing to a smoother, more refined complexion. As a water-soluble form of Vitamin B3, Niacinamide helps to block the transfer of melanin from melanocytes (the cells responsible for producing melanin) to the outer layers of the skin, thereby reducing the appearance of dark spots and hyperpigmentation. Additionally, it helps to restore the skin's natural barrier function, improving moisture retention and overall hydration, resulting in smoother, healthier-looking skin. **Calcium Pantothenate:** Also known as Vitamin B5, this substance protects skin moisture, forms a healthy skin barrier and increases its vitality. During peeling, Calcium Pantothenate preserves the natural texture of the skin, contributing to a smooth and vibrant appearance.

Sodium Ascorbyl Phosphate: A stable form of Vitamin C, it helps brighten the skin and combat the effects of free radicals. It can also reduce the appearance of wrinkles by supporting collagen production and contribute to skin rejuvenation. Sodium Ascorbyl Phosphate helps the skin gain a fresh, vibrant and youthful appearance in peeling applications.

Tocopheryl Acetate: A form of Vitamin E, it protects the skin against environmental stress factors by providing antioxidant benefits. During peeling, by protecting the skin like a shield against external factors, Tocopheryl Acetate contributes to the skin gaining a young and healthy appearance.

Pyridoxine HCL: Also known as Vitamin B6, this substance supports skin health and helps to achieve a more vibrant appearance after peeling. Thanks to its anti-inflammatory properties, it calms the skin and can reduce sensitivity. At the same time, it strengthens the skin's natural barrier and maintains its moisture balance.

HERBAL PEELING MECHANISM OF ACTION

Plants applied to the skin aim to accelerate the circulation of the skin and stimulate the skin metabolism.

The aim is to carry more oxygen to the skin from the capillaries by increasing circulation.

The aim is to accelerate the removal of the dead keratin layer on the skin with the application.

Epidermis regeneration is supported.

A visible improvement in skin quality is aimed with renewed skin.

Visible improvements in acne scars, brown and red spots caused by acne are aimed with increased collagen synthesis.

Improvement in superficial skin spots and wrinkles is supported.

NATURAL PEELING SOLUTION

NATURAL PEELING SOLUTION 19

accompanies herbal peeling applications with its active content. Thanks to its intense Hyaluronic Acid content, it provides high-level moisture and barrier protection effect on the skin!

THE FIRST NATURAL
PEELING SOLUTION
DEVELOPED IN **GEL**
FORM WITH INTENSE
**HYALURONIC
ACID** CONTENT.

Formulated in / Florida, USA

100 ml

NATURAL PEELING SOLUTION INGREDIENTS

Gluconolactone: It is an effective ingredient that offers various benefits in skin care. It acts as a gentle exfoliant, removing dead skin cells and fatigue from the skin surface, providing a smoother skin. It also helps maintain and regulate skin moisture, providing long-term moisturization. With its antioxidant effect, it protects the skin from damage caused by free radicals, providing a young and healthy appearance. Known for its soothing effects, this active is suitable for sensitive skin.

Saccharomyces Ferment Filtrate: It is commonly known as yeast extract. Rich in amino acids, vitamins and enzymes, this ingredient supports the skin's natural renewal process, providing a smooth texture. Its moisturizing properties help maintain optimum moisture levels, contributing to plump and supple skin. In addition, its antioxidant content helps protect the skin from environmental stressors, preventing premature aging. In peeling applications, Saccharomyces Ferment Filtrate helps gently exfoliate by removing dead skin cells and promoting cell renewal for a rejuvenated appearance.

These botanical extracts contain powerful antioxidants and help keep skin youthful by fighting against free radicals. They also have anti-inflammatory properties, reducing skin inflammation and soothing sensitive skin. They can even out skin tone, promote collagen production, provide hydration and reduce pigmentation problems. Enriched with vitamins and minerals that support skin health. It supports the skin to reach its ideal state in peeling applications.

Lactic acid: Lactic acid, which is frequently used in peeling formulations, offers various benefits for skin renewal. Known for its gentle exfoliating properties, lactic acid helps to remove dead skin cells, resulting in a smoother and more even complexion. Unlike more aggressive exfoliating agents, it is well tolerated by a variety of skin types, including sensitive skin. In addition, lactic acid stimulates collagen production, contributing to improved skin texture and firmness. Its moisturizing properties help to retain skin moisture, leaving

skin supple and refreshed.

Aloe Vera Leaf:

A soothing and moisturising ingredient, aloe vera leaf juice adds valuable benefits to exfoliating formulations. Known for its natural anti-inflammatory and cooling properties, aloe vera helps reduce the potential irritation associated with exfoliation. The moisture-rich composition of the juice helps maintain optimum hydration levels and prevents excessive dryness often associated with exfoliation. In addition, aloe vera contributes to the skin's healing process, allowing the effects of the exfoliation to heal more quickly. Its gentle texture makes it particularly suitable for sensitive skin, providing a comfortable and refreshing exfoliation experience, while leaving the skin revitalised and balanced.

Sodium Hyaluronate (Hyaluronic Acid): It is known for its exceptional moisturizing properties. In peeling procedures, it not only helps to eliminate potential dryness caused by peeling, but also contributes to a plump and supple skin. Sodium Hyaluronate helps to maintain the elasticity of the skin, providing a smoother and firmer appearance. Its ability to deeply moisturize the skin makes it an excellent addition to peeling formulations, ensuring a rejuvenated and well-nourished skin texture throughout the exfoliation process.

Allantoin: Known for its soothing and calming properties, Allantoin helps to alleviate the potential irritation and redness associated with peeling. It supports skin renewal and speeds up the healing process, helping to improve the effects of exfoliation. In addition, Allantoin acts as a humectant, increasing moisture and preventing excessive dryness often associated with peeling treatments. Its gentle nature makes it suitable for a variety of skin types, providing a comfortable and refreshing exfoliation experience, while contributing to smoother, more youthful skin.

This carefully crafted Algae Peeling Kit combines the power of these active ingredients to deliver a comprehensive and revitalizing skincare experience.

CLARIFY

CLEANSING GEL

CLARIFY Cleansing Gel is specially formulated to provide gentle yet effective cleansing while preserving the skin's natural moisture balance. It cleanses the skin of dirt, excess oil and makeup residue, and provides brightening and smoothing effects. The gel-formed cleanser is suitable for all skin types and provides a versatile addition to your daily skin care routine.

DOES NOT CONTAIN SLS, SLES, PARABEN, PERFUME, DYE.

Dermatologically tested.

- Hyaluronic Acid
- Aloe Barbadensis
- Zinc PCA
- Citrus Grandis
- Niacinamide
- Centella Asiatica

Formulated in / Florida, USA

500 ml

Key Benefits:

Deep Clean: The combination of COCAMIDOPROPYL BETAINE and DISODIUM COCOAMPHODIACETATE gently cleanses your skin of dirt, oil and make-up, giving it a fresh and vibrant look.

Lighting: It brightens the skin and helps prevent blemishes with NIACINAMIDE, also known as Vitamin B3, and GRAPEFRUIT, which is rich in Vitamin C.

Repair and Soothe: Known for its calming properties, CENTELLA ASIATICA EXTRACT helps soothe inflammation and redness. It supports the repair of damaged skin and is also ideal for those with sensitive or irritated skin.

Soothing and Moisturizing: It soothes, nourishes and moisturizes the skin with the ALOE VERA it contains. It helps prevent skin damage.

Moisture Retention: With HYALURONIC ACID, it increases the moisture retention capacity of the skin, prevents moisture loss, and helps prevent the formation of lines and wrinkles.

Antioxidant: With its formula containing GRAPEFRUIT, it has an antioxidant effect that helps protect your skin from environmental stress factors and free radical damage.

Balancing: ZINC PCA helps regulate sebum production and balances the skin's natural pH level, providing a healthy and radiant complexion.

Each ingredient in CLARIFY Cleansing Gel has been carefully selected to provide maximum benefits for your skin, both individually and together with its synergistic effect.

Usage:

Wet your face with warm water. Take a small amount of CLARIFY Cleansing Gel in your palms.

Lather the gel by gently massaging it into your damp skin using circular motions.

Rinse thoroughly with water and dry your face.

Depending on your skin condition and needs, you can apply REVEAL MD CLARIFY GLYCOLIC TONER, REVEAL MD ILLUMINATING INTENSIVE BRIGHTENING SERUM or REVEAL MD NO-AC INTENSIVE PURIFYING CREAM after the cleansing gel.

Say hello to clean, vibrant, nourished and glowing skin with CLARIFY Cleansing Gel on this journey to perfection in skin care!

Hyaluronic Acid: Hyaluronic acid is a water-binding molecule (known as a type of glycosaminoglycan) found abundantly in the skin. It works by attracting large amounts of water molecules and holding them in the skin, which is essential for maintaining skin moisture balance and plumpness. It hydrates the skin, protects the skin barrier, and provides anti-aging effects. It provides moisture-preserving benefits in cleansing products.

Zinc PCA: Zinc and PCA are synergistic. The zinc portion helps normalize sebum production and limit the proliferation of harmful bacteria that cause acne. L-PCA stands for pyrrolidone carboxylic acid and is a key molecule that helps with hydration and energy processes in the skin. It balances sebum secretion and offers a purifying effect.

Centella Asiatica: Prevents irritation, repairs the skin barrier. Provides soothing and relaxing effects.

Centella Asiatica, also known as Gotu Kola, is a plant native to Asia. Centella is frequently used in many Asian countries, especially in the kitchen and in health and beauty areas, due to its numerous benefits. The most important components of the plant are called triterpenoids saponins. It has four isolated compounds called asiaticoside, asiatic acid, madecassic acid and madecassoside. It is generally used as Centella Asiatica extract in formulations.

Centella Asiatica extract is able to penetrate the skin sufficiently to be used effectively and has been known to treat wounds and burns for centuries. This has been shown in both in vitro and in vivo studies supporting its effectiveness in wound healing. The way it does this is by promoting fibroblast proliferation and collagen synthesis, as well as inhibiting the inflammatory phase of scars. It has also been observed that its triterpenoid components stimulate the production of glycosaminoglycans, particularly hyaluronic acid.

Citrus Grandis: Grapefruit contains antioxidants, vitamin C, minerals and enzymes. It helps purify and revitalize the skin without irritating the pores.

Niacinamide: Niacinamide, also known as nicotinamide, is vitamin B3. It balances oil secretion, regulates skin tone, and gives a bright appearance.

Aloe Barbadensis: Aloe vera, a succulent plant native to Africa, is frequently used in the health and beauty world. It contains 75 potentially active ingredients: vitamins, enzymes, minerals, sugars, lignin, saponins, salicylic acids and amino acids.

Aloe Vera soothes, moisturizes, and provides softness and elasticity to the skin. Aloe Vera has an anti-inflammatory effect on the skin. It prevents irritation and helps repair the skin.

CLARIFY

GLYCOLIC TONER

This special formula, enriched with revitalizing herbal ingredients, antioxidant components and amino acids, refreshes the skin and helps maintain moisture balance. Provides a bright and radiant appearance.

Key Benefits:

Moisturizing: Panthenol (Provitamin B5) provides deep moisturizing of the skin. With its moisturizing effect, it strengthens the skin barrier, prevents water loss and increases the elasticity of the skin. Aloe Vera moisturizes and soothes the skin with its high water content, contributing to the smoother and more flexible skin. Lactic Acid increases the moisture retention capacity of the skin, providing a softer and more moist skin. Amino Acids prevent dryness by preserving the natural moisture balance of the skin and strengthen the skin barrier.

Revitalizing: Guarana revitalizes the skin with its high caffeine content and gives it an energetic appearance. It increases the blood circulation of the skin, providing a more lively and fresh appearance. Goji Beri nourishes and revitalizes the skin with its vitamin and mineral rich content. Glycolic Acid accelerates skin renewal by cleansing dead cells on the skin surface and provides a fresher appearance. Sage balances excess oil in the skin, making the skin look cleaner and healthier.

Antioxidant: Glutathione, as a powerful antioxidant, neutralizes free radicals and protects the skin from environmental stress factors. Vitamin C prevents premature aging of the skin by fighting against free radicals and improves skin texture. Grape Seed Extract protects the skin from free radical damage with its antioxidant properties and increases skin elasticity. St. John's Wort soothes and heals the skin with its anti-inflammatory and antioxidant properties. Niacinamide protects the skin's overall health by strengthening the skin barrier and provides protection against free radicals.

Lightening: Arbutin evens out skin tone and reduces the appearance of dark spots by inhibiting melanin production. Vitamin C brightens skin tone by inhibiting melanin synthesis and provides a more even appearance. Glutathione reduces hyperpigmentation in the skin and evens out skin tone. Poppy Extract brightens the skin and provides a natural glow. Niacinamide regulates skin tone and reduces the appearance of acne scars and dark spots.

How to use:

Apply gently to your skin using a cotton pad.

Use in the morning and/or evening

Ingredients

Glycolic Acid: Glycolic acid is an alpha hydroxy acid (AHA) that accelerates skin renewal by breaking down dead cells in the upper layers of the skin. This acid is easily absorbed by the skin thanks to its small molecule structure and penetrates deep into the epidermis. It reduces the appearance of fine lines and wrinkles by encouraging collagen production in the skin. In addition, with regular use, it improves skin texture and tone, and reduces hyperpigmentation. Glycolic acid is also effective in treating acne, cleansing pores and preventing blockages.

Amino Acids: Amino acids act as building blocks for the skin's natural proteins and play a critical role in maintaining skin health. They strengthen the skin barrier, reduce transepidermal water loss and maintain the skin's moisture balance. These components increase skin elasticity, providing a firmer and more flexible appearance. They also support the repair of damaged skin tissues and increase the skin's overall resistance. Amino acids strengthen the skin's defense mechanisms and protect against external factors.

Niasinamid: Niacinamide is vitamin B3 and is known for its versatile benefits in skin care. Thanks to its anti-inflammatory properties, it soothes skin conditions such as acne and rosacea and reduces swelling. It controls excessive shine in oily skin by balancing sebum production. It also reduces the appearance of hyperpigmentation and spots by inhibiting melanin production, and evens out skin tone. Niacinamide strengthens the skin barrier and increases the skin's moisture retention capacity, resulting in a healthier and more vibrant skin.

Salicylic Acid: Salicylic acid is an oil-soluble beta hydroxy acid (BHA) that penetrates deep into pores to clear blockages. Its antibacterial and anti-inflammatory properties help eliminate acne-causing bacteria and prevent acne. It exfoliates dead skin cells on the skin's surface, resulting in smoother, clearer skin. With regular use, salicylic acid improves skin texture and evens out skin tone. It also reduces the formation of blackheads and whiteheads, resulting in a clearer complexion.

Zinc PCA: Zinc PCA regulates sebum production in the skin, providing balance in oily skin and preventing acne formation. With its antibacterial properties, it eliminates harmful microorganisms on the skin and helps keep the skin clean. Zinc reduces redness and irritation on the skin with its anti-inflammatory effects. It also strengthens the skin barrier, prevents moisture loss and supports the skin's natural defense mechanism. Zinc PCA protects the skin's overall health while also providing a more matte and balanced skin appearance.

Arbutin: Arbutin is a naturally occurring hydroquinone derivative that helps reduce hyperpigmentation in the skin by inhibiting melanin synthesis. It specifically targets pigmentation problems such as sun spots, age spots, and acne scars. Arbutin brightens the skin and provides a more even skin tone. It protects the skin from free radical damage with its antioxidant properties. Arbutin is also suitable for sensitive skin and offers effective results without causing irritation.

Glutathione: Glutathione is a powerful antioxidant found naturally in the skin, protecting cells from free radical damage. It evens out skin tone and reduces the appearance of dark spots by inhibiting melanin production. At the same time, glutathione supports the skin's detoxification processes and accelerates cellular renewal. This ingredient increases skin elasticity, providing a younger, healthier appearance. Glutathione delays signs of aging and improves the overall health of the skin.

Lactic Acid: Lactic acid belongs to the alpha hydroxy acid (AHA) group and gently exfoliates the skin, removing dead cells. This process helps the skin look brighter and smoother. Lactic acid also increases the skin's moisture retention capacity and strengthens the skin barrier. It creates a healthier skin environment by regulating the skin's pH balance. With regular use, it reduces the appearance of fine lines and wrinkles, improves skin texture and evens out skin tone.

Vitamin C: As a powerful antioxidant, vitamin C fights free radicals and supports the skin's natural repair processes. It reduces dark spots and hyperpigmentation by inhibiting melanin production, and evens out skin tone. It maintains skin elasticity and firmness by increasing collagen synthesis, thus reducing the appearance of fine lines and wrinkles. Vitamin C also reduces inflammation in the skin and improves skin texture. With regular use, skin becomes brighter, younger and healthier.

Sage: Sage is known for its anti-inflammatory and antibacterial properties and soothes the skin, reducing irritation. It helps control excess oil production in the skin, thus contributing to the prevention of acne and other skin problems. Sage also has antioxidant properties, fighting free radicals and supporting the skin in the fight against environmental damage. It strengthens the skin barrier and increases the skin's moisture retention capacity. Sage extract protects the skin's overall health and provides a clearer, more balanced complexion.

Aloe Vera: Aloe vera deeply moisturizes and soothes the skin, reduces irritation and redness with its anti-inflammatory properties. It accelerates the renewal of skin cells and supports the repair of damaged tissues. Aloe vera strengthens the skin's natural barrier and prevents moisture loss, making the skin healthier and more elastic. It protects the skin from free radical damage with its antioxidant properties. Aloe vera is effective in treating skin damage such as sunburn and promotes skin renewal.

St. John's Wort: St. John's Wort extract has strong anti-inflammatory and antimicrobial properties and soothes the skin and reduces irritation. It accelerates the healing of

wounds and burns on the skin and supports cellular renewal. St. John's Wort maintains the skin's moisture balance and strengthens the skin barrier. In addition, its antioxidant properties protect the skin from free radical damage. St. John's Wort extract is ideal for sensitive and irritated skin and helps the skin look healthier and more balanced.

Guarana: Thanks to its high caffeine content, guarana revitalizes the skin and gives it an energetic appearance. Rich in antioxidants, guarana protects the skin from environmental stress factors by fighting free radicals. It increases blood circulation, making the skin look more vibrant and fresh. Guarana encourages skin cell renewal and improves skin texture. It also reduces the appearance of fine lines and wrinkles on the skin, thus providing a younger skin appearance.

Goji Beri: Goji Beri is rich in vitamins, minerals and antioxidants, nourishes and moisturizes the skin. It slows down the skin aging process by reducing the damage caused by free radicals. Goji Beri accelerates the renewal of skin cells and improves skin texture. It also evens out skin tone and gives a brighter appearance. Goji Beri increases skin elasticity and strengthens the skin barrier, so skin looks healthier and younger.

Grape Seed: Grape seed extract is known for its powerful antioxidant properties and protects the skin against free radical damage. It increases the elasticity of the skin and tightens it, thus providing a younger and healthier skin appearance. Grape seed supports the renewal of skin cells and improves skin texture. It reduces redness and irritation on the skin with its anti-inflammatory properties. It also evens out the skin tone and provides a brighter skin appearance.

Poppy: Poppy extract soothes and moisturizes the skin, reducing irritation and redness with its anti-inflammatory properties. It strengthens the skin's natural barrier and prevents moisture loss, making the skin healthier and more elastic. It protects the skin from free radical damage with its antioxidant properties. Poppy extract improves the overall health of the skin and provides a brighter, more balanced complexion. It also promotes skin cell renewal and improves skin texture.

Panthenol: Panthenol, also known as provitamin B5, deeply moisturizes the skin. It strengthens the skin barrier, reduces irritation and supports the skin's renewal process. Panthenol accelerates the repair of skin cells, resulting in a healthier and smoother complexion. Its anti-inflammatory properties reduce redness and irritation on the skin. It also increases skin elasticity and improves skin texture, making the skin softer and more flexible.

It is a daily moisturizer specially formulated for oily and acne-prone skin. It moisturizes the skin without making it oily; it is effective against blackheads, pimples and acne-like skin problems. It helps to soothe the skin that is reactive due to skin imperfections. It helps to balance oil secretion and provides a mattifying effect. It gives a lively, bright and smooth appearance.

Dermatologically tested.

- Salicylic Acid
- Zinc PCA
- Tea Tree Oil
- Centella Asiatica
- Niacinamide
- Tocopheryl Acetate

**CRUELTY
FREE**

**PARABEN

Formulated in / Florida, USA

Key Benefits:

Anti-inflammatory and antibacterial: Salicylic acid is a beta hydroxy acid. It helps prevent acne, pimples and blackheads by keeping pores clean with its exfoliant effect that cleanses the skin from dead cells.

Against acne and related skin problems: Tea Tree Oil has strong antibacterial, antimicrobial and anti-inflammatory effects. It offers effective care against acne and related skin problems. It is non-comedogenic, does not clog pores, on the contrary, it has a purifying effect. In addition, it helps rejuvenate the skin thanks to its antioxidant properties.

Repairing the skin barrier: Centella Asiatica has been shown to reduce skin irritation by repairing the skin barrier function. Its components help reduce redness, inflammation, and relieve itchy skin due to their soothing and healing properties. This is one of the reasons it is used in products for sensitive and acne-prone skin. It speeds up healing, improves overall acne severity, and prevents future blemishes and scars.

Against acne spots and redness: Niacinamide, also known as nicotinamide, is vitamin B3 and has an anti-acne effect. It is an anti-inflammatory that works to reduce the swelling and redness associated with acne. It helps balance oil secretion. It also evens out skin tone and is effective against the redness and blemishes that acne can leave on the skin.

Limiting the proliferation of bacteria: Zinc PCA is a synergistic combination of Zinc and PCA. The zinc portion helps normalize sebum production and limit the proliferation of harmful bacteria that cause acne. L-PCA stands for pyrrolidone carboxylic acid and is a key molecule that helps with hydration and energy processes in the skin.

Antioxidant: Tocopheryl Acetate is the stable form of Vitamin E. It protects cell membranes from free radical damage with its strong antioxidant effect. It helps prevent premature aging of the skin caused by UV radiation and lipid peroxidation. Vitamin E is supportive in acne treatments with its anti-inflammatory effect.

How to use:

1. Cleanse and dry your face thoroughly. Use CLARIFY Cleansing Gel for cleansing.
2. Apply a small amount of NO-AC Intensive Purifying Cream to your face and neck, avoiding the eye area.
3. Gently massage the cream into your skin with upward and outward movements.
4. Wait for the cream to be completely absorbed before applying sunscreen (especially during the day).

Ingredients

Salicylic Acid: It is a beta hydroxy acid with anti-inflammatory and antibacterial properties. It helps prevent acne, pimples and blackheads by keeping pores clean with its exfoliant effect that cleanses the skin from dead cells.

Acne occurs when excess oil and dead skin cells clog the pores on the skin.

Bacteria can also get trapped inside the pore, causing inflammation and pus-filled pimples. Salicylic acid works to treat acne by opening clogged pores. It does this by breaking down the bonds between dead skin cells and sebum so that they can be released more easily from the pores. It also reduces sebum production, supports the skin to bring it to its ideal state by balancing oil secretion.

Salicylic acid also provides a preventive and restorative effect against papules, oil glands, blackheads, post-acne erythema (redness), hyperpigmentation (blemish) problems.

Zinc PCA: Zinc and PCA are synergistic compounds. The zinc portion helps normalize sebum production and limit the proliferation of harmful bacteria that cause acne. L-PCA stands for pyrrolidone carboxylic acid and is a key molecule that helps with hydration and energy processes in the skin. Zinc PCA (or "zinc salt") has a strong effect against acne and pimples. It helps reduce redness and sebum secretion. It supports the general healing process of the skin.

Tea Tree Oil: This active ingredient contains about 100 components, has strong antibacterial, antimicrobial and anti-inflammatory effects. It offers effective care against acne and related skin problems. It is non-comedogenic, does not clog pores, on the contrary, it has a purifying effect. In addition, it helps rejuvenate the skin thanks to its antioxidant properties.

Niacinamide: Niacinamide, also known as nicotinamide, is vitamin B3 and has anti-acne effects. It is an anti-inflammatory that works to reduce the swelling and redness associated with acne. It helps balance oil secretion. It also evens out skin tone and is effective against the redness and blemishes that acne can leave on the skin.

Centella Asiatica: The most important components of the Centella Asiatica Plant are called triterpenoid saponins. It has four isolated compounds called asiaticoside, asiatic acid, madecassic acid and madecassoside. It is generally used as Centella Asiatica extract in formulations. In addition to promoting fibroblast proliferation and collagen synthesis, it inhibits the inflammatory phase of scars. In addition, triterpenoid components have been observed to stimulate the production of glycosaminoglycans, especially hyaluronic acid. Centella Asiatica has been determined to reduce skin irritation by repairing the skin barrier function. Its components help reduce redness, inflammation and relieve itchy skin due to their soothing and healing properties. This is one of the reasons why it is used in products for sensitive and acne-prone skin. It accelerates healing, reduces the severity of overall acne and prevents future spots and scars.

Tocopheryl Acetate: It is the stable form of Vitamin E. It protects cell membranes from free radical damage with its strong antioxidant effect. It helps prevent premature aging of the skin caused by UV radiation and lipid peroxidation. Vitamin E is supportive in acne treatments with its anti-inflammatory effect.

DEEP

HYDRATING MASK

Designed with advanced hydration technologies, this innovative mask effectively combats dehydration by delivering targeted moisture support. Using a state-of-the-art formulation, its creamy texture envelops the skin, creating a moisture-rich barrier that promotes softness, suppleness and radiance for a youthful complexion.

HYDRATING MASK INGREDIENTS

Seramid NP: Ceramide NP is an important lipid that strengthens the skin barrier and increases the skin's moisture retention capacity. It prevents transepidermal water loss by forming the skin's natural barrier and protects the skin against external factors. Ceramide NP increases skin elasticity and eliminates dryness, thus providing softer and smoother skin. At the same time, it protects the skin's overall health and reduces skin sensitivity. Ceramide NP supports the skin's natural renewal process and reduces the appearance of fine lines on the skin.

Collagen: Collagen is one of the basic proteins of the skin structure and increases the elasticity and firmness of the skin. It reduces the appearance of fine lines and wrinkles on the skin by supporting the collagen production that decreases with aging. Collagen increases the water retention capacity of the skin, providing a more moist and plump skin. At the same time, it accelerates the skin's renewal process and improves skin texture. Collagen protects the skin's overall health and gives it a more youthful appearance.

Lycopene: Lycopene is a powerful antioxidant that protects the skin from free radical damage. It slows down the aging process of the skin by reducing oxidative stress caused by UV rays and environmental pollution. It strengthens the skin texture and increases the elasticity of the skin. Lycopene maintains the moisture balance of the skin and evens out the skin tone, providing a brighter and healthier skin appearance. It also reduces inflammation in the skin and relieves irritation and redness.

Niacinamide: Niacinamide is a B3 vitamin that strengthens the skin barrier and maintains the skin's moisture balance. It reduces redness and irritation on the skin with its anti-inflammatory properties. It prevents acne and pimples by balancing sebum production. Niacinamide evens out skin tone and reduces hyperpigmentation by inhibiting melanin production. It also increases skin elasticity and improves skin texture, making skin softer and more flexible.

Zinc PCA: Zinc PCA regulates sebum production in the skin, providing balance in oily skin and preventing acne formation. With its antibacterial properties, it eliminates harmful microorganisms on the skin and helps the skin stay clean. Zinc reduces redness and irritation on the skin with its anti-inflammatory effects. It also strengthens the skin barrier, prevents moisture loss and supports the skin's natural defense mechanism. Zinc PCA protects the skin's overall health while also providing a more matte and balanced skin appearance.

Vitamin C: Vitamin C is a powerful antioxidant that fights free radicals and supports the skin's natural repair processes. It reduces dark spots and hyperpigmentation by inhibiting melanin production, and evens out skin tone. It maintains skin elasticity and firmness by increasing collagen synthesis, thus reducing the appearance of fine lines and wrinkles. Vitamin C also reduces inflammation in the skin and improves skin texture. With regular use, skin becomes brighter, younger and healthier.

Glutathione: Glutathione is a powerful antioxidant found naturally in the skin, protecting cells from free radical damage. It evens out skin tone and reduces the appearance of dark spots by inhibiting melanin production. At the same time, glutathione supports the skin's detoxification processes and accelerates cellular renewal. This ingredient increases skin elasticity, providing a younger, healthier appearance. Glutathione delays signs of aging and improves the overall health of the skin.

Arbutin: Arbutin reduces hyperpigmentation and evens out skin tone by inhibiting melanin production. It specifically targets pigmentation problems such as sun spots, age spots, and acne scars. Arbutin brightens the skin and provides a more even skin tone. It protects the skin from free radical damage with its antioxidant properties. Arbutin is also suitable for sensitive skin and offers effective results without causing irritation.

Lecithin: Lecithin is a phospholipid that strengthens the skin barrier and maintains the skin's moisture balance. It deeply moisturizes the skin and supports the repair of skin cells. With its antioxidant properties, it neutralizes the damage caused by free radicals and prevents premature aging of the skin. Lecithin increases the skin's elasticity, providing a softer and more flexible skin. At the same time, it improves skin texture and protects the skin's overall health.

Lactic acid: Lactic acid gently exfoliates the skin, removing dead cells and supporting skin renewal. It increases the skin's moisture retention capacity, providing softer and more moisturized skin. It strengthens the skin barrier and improves skin texture. Lactic acid also regulates the skin's pH balance, creating a healthier skin environment. With regular use, it reduces the appearance of fine lines and wrinkles and evens out skin tone.

Vitamin E: Vitamin E protects the skin from free radical damage with its powerful antioxidant properties. It renews skin cells and makes the skin look younger and healthier. Vitamin E maintains the skin's moisture balance and strengthens the skin barrier. It also reduces inflammation in the skin and improves skin texture. Vitamin E increases skin elasticity, providing softer and more flexible skin.

Grape Seed: Grape seed extract is known for its powerful antioxidant properties and protects the skin against free radical damage. It increases the elasticity of the skin and tightens it, thus providing a younger and healthier skin appearance. Grape seed supports the renewal of skin cells and improves skin texture. It reduces redness and irritation on the skin with its anti-inflammatory properties. It also evens out the skin tone and provides a brighter skin appearance.

Avocado Oil: Avocado oil intensely moisturizes and nourishes the skin. It increases the skin's elasticity and strengthens the skin barrier with nutrients such as vitamin E, potassium and lecithin. It protects the skin from free radical damage with its antioxidant properties. Avocado oil accelerates the skin's renewal process and improves skin texture. It also maintains the skin's moisture balance and provides softer, smoother skin.

German Chamomile: German chamomile extract soothes the skin and reduces irritation with its powerful anti-inflammatory properties. It relieves redness and sensitivity on the skin, making the skin more comfortable and balanced. It protects the skin from free radical damage with its antioxidant properties. It also supports the renewal of skin cells and improves skin texture. German chamomile protects the overall health of the skin and gives the skin a natural glow.

Moss: Algae extract intensively moisturizes the skin and strengthens the skin barrier. Rich in minerals and vitamins, algae increases skin elasticity and improves skin texture. With its antioxidant properties, it protects the skin from free radical damage and prevents premature skin aging. Algae accelerates the skin's renewal process and evens out skin tone. It also makes the skin look brighter and more vibrant.

Formulated with advanced purifying technologies, this mixture is specially designed to meet the needs of combination, oily and acne-prone skin. It deeply purifies by wrapping the skin with its special texture. It supports a fresh and vibrant appearance.

PURIFYING MASK INGREDIENTS

Salicylic Acid: Salicylic acid, which is in the beta hydroxy acid (BHA) class, can penetrate the skin's oil layer thanks to its lipophilic structure and dissolve sebum accumulations in the pores, opening blockages. These properties prevent the growth of *Propionibacterium acnes* bacteria, one of the main causes of acne formation. Salicylic acid also exfoliates dead cells on the skin's surface, providing a smoother and brighter complexion. Its anti-inflammatory properties improve the overall appearance of the skin by reducing existing acne and redness. Long-term use helps renew skin tissue and shrink pores.

Zinc PCA: Zinc PCA is a combination of zinc and PCA (pyrrolidone carboxylic acid). Zinc neutralizes acne-causing bacteria thanks to its antibacterial properties. PCA prevents the skin from drying out by preserving the skin's natural moisture level. This component regulates sebum production, provides the skin's oil balance and minimizes acne formation. At the same time, zinc PCA increases skin elasticity and soothes irritated skin. It strengthens the skin's immune system and makes it more resistant to environmental stress factors.

Tea Tree Oil and Extract: Tea tree oil is derived from the *Melaleuca alternifolia* plant and has strong antiseptic, antibacterial and antifungal properties. It kills microorganisms on the skin, prevents acne formation and speeds up the healing process of existing acne. Thanks to its anti-inflammatory effects, it reduces redness and swelling on the skin. Tea tree oil also helps to cleanse the skin of excess oil by balancing sebum production. It soothes the skin and gives a feeling of freshness, and at the same time, it protects the skin from free radicals with its antioxidant properties.

Licorice Root: Licorice extract, derived from the *Glycyrrhiza glabra* plant, has powerful anti-inflammatory and antioxidant properties. It reduces redness and inflammation on the skin, leaving the skin looking calmer and more balanced. Licorice contains the compound glabridin, which helps even out skin tone, reducing hyperpigmentation and dark spots. Its antioxidant properties protect the skin from free radical damage, delaying the signs of aging. At the same time, licorice increases skin elasticity and strengthens the skin barrier.

Arbutin: Arbutin is a natural compound derived from plants such as blueberries, cranberries, and pears. It reduces dark spots and hyperpigmentation on the skin by inhibiting melanin production. It provides a brighter and more even skin tone. Arbutin inhibits melanin synthesis by suppressing the tyrosinase enzyme and prevents the formation of new spots. It protects the skin from damage caused by free radicals thanks to its antioxidant properties. It improves the overall texture of the skin and reduces the signs of aging with long-term use.

Glutathione: Glutathione is a powerful antioxidant that plays an important role in the skin's detoxification process. It protects the skin from oxidative stress by neutralizing free radicals and reduces the signs of aging. It evens out skin tone, providing a brighter and more youthful appearance. Glutathione also reduces dark spots and hyperpigmentation by inhibiting melanin production. It supports cell renewal and increases skin elasticity. It strengthens the skin barrier, making it more resistant to environmental factors.

Vitamin C: It is a powerful antioxidant and protects the skin from the harmful effects of free radicals. It improves the skin's firmness and elasticity by increasing collagen production. It brightens the skin tone and provides a more even and bright appearance. Vitamin C also helps the skin look younger and fresher by reducing hyperpigmentation and dark spots. It soothes the skin and reduces redness with its anti-inflammatory properties.

Lavender Oil: Lavender oil is derived from the *Lavandula angustifolia* plant and has strong antiseptic and anti-inflammatory properties. It kills bacteria on the skin, preventing acne and speeding up the healing of existing acne. It soothes the skin and relieves irritated skin. Lavender oil also controls excess oil production by maintaining the skin's natural oil balance. Its antioxidant properties protect the skin from free radicals and reduce the signs of aging.

Rosemary Oil: Rosemary oil, obtained from the *Rosmarinus officinalis* plant, has strong antioxidant and anti-inflammatory properties. It helps protect the skin from free radicals and provides resistance to environmental factors. It is effective in combating acne and reduces inflammation and redness on the skin. It accelerates the skin's renewal process by increasing blood circulation. Rosemary oil also helps even out skin tone and makes the skin look healthier.

Lemon Peel Oil: This oil, obtained from the peel of the *Citrus lemon* plant, has antiseptic and brightening properties. It kills bacteria on the skin, prevents acne formation and helps heal existing acne. Lemon peel oil evens out skin tone, providing a brighter and more radiant appearance. It also balances oil production in the skin and controls excess sebum. It protects the skin from free radicals and reduces signs of aging with its antioxidant properties.

Lecithin: Lecithin is an important component of cell membranes and plays a critical role in maintaining the skin's moisture balance. It moisturizes and softens the skin, thus strengthening the skin barrier. Lecithin increases the effectiveness of products by helping other active ingredients penetrate the skin better. It promotes cell renewal and increases skin elasticity. Its antioxidant properties protect the skin from the harmful effects of free radicals and make the skin look healthier.

Allantoin: Allantoin is known for its soothing and healing properties. It promotes cell renewal, making the skin smoother and healthier. Allantoin reduces skin irritation and redness, helping to make the skin calmer and more balanced. It softens the skin and prevents dryness with its moisturizing properties. It also strengthens the skin barrier, making it more resistant to environmental factors.

Menthol: Menthol provides a refreshing effect when applied to the skin and tightens pores. With its antiseptic properties, it cleanses the skin and kills bacteria, preventing acne formation. It relieves itching and irritation on the skin, thus making the skin feel more comfortable. Menthol also supports the skin's regeneration process by increasing blood circulation. With its anti-inflammatory properties, it reduces inflammation and redness on the skin.

Vitamin E: Vitamin E, as a powerful antioxidant, protects the skin from the harmful effects of free radicals. It strengthens the skin barrier and maintains the skin's moisture level, thus softening the skin and increasing its elasticity. Vitamin E improves skin texture and reduces signs of aging. It soothes the skin with its anti-inflammatory properties and relieves redness. It also supports the skin's renewal process, providing a healthier appearance.

Grape Seed: Grape seed extract contains proanthocyanidins, which are powerful antioxidants that protect the skin from the harmful effects of free radicals. It increases skin elasticity and makes the skin look firmer and younger. Grape seed evens out skin tone and reduces hyperpigmentation and dark spots. It soothes the skin and reduces inflammation with its anti-inflammatory properties. It strengthens the skin barrier and makes it more resistant to environmental factors.

Key Benefits:

Ingredients

Deep Clean: The combination of COCAMIDOPROPYL BETAINE and DISODIUM COCOAMPHODIACETATE gently cleanses your skin of dirt, oil and make-up, giving it a fresh and vibrant look.

Lighting: It brightens the skin and helps prevent blemishes with NIACINAMIDE, also known as Vitamin B3, and GRAPEFRUIT, which is rich in Vitamin C.

Repair and Soothe: Known for its calming properties, CENTELLA ASIATICA EXTRACT helps soothe inflammation and redness. It supports the repair of damaged skin and is also ideal for those with sensitive or irritated skin.

Soothing and Moisturizing: It soothes, nourishes and moisturizes the skin with the ALOE VERA it contains. It helps prevent skin damage.

Moisture Retention: With HYALURONIC ACID, it increases the moisture retention capacity of the skin, prevents moisture loss, and helps prevent the formation of lines and wrinkles.

Antioxidant: With its formula containing GRAPEFRUIT, it has an antioxidant effect that helps protect your skin from environmental stress factors and free radical damage.

Balancing: ZINC PCA helps regulate sebum production and balances the skin's natural pH level, providing a healthy and radiant complexion.

Each ingredient in CLARIFY Cleansing Gel has been carefully selected to provide maximum benefits for your skin, both individually and through their synergistic effect.

Usage:

Wet your face with warm water.

Put a small amount of CLARIFY Cleansing Gel in your palms.

Lather the gel by gently massaging it into your damp skin with circular motions.

Rinse thoroughly with water and dry your face.

Depending on the condition and needs of your skin, you can apply REVEAL MD CLARIFY GLYCOLIC TONER, REVEAL MD ILLUMINATING INTENSIVE BRIGHTENING SERUM or REVEAL MD NO-AC INTENSIVE PURIFYING CREAM after the cleansing gel.

Say hello to clean, vibrant, nourished and glowing skin with CLARIFY Cleansing Gel on this journey to perfection in skin care!

Hyaluronic Acid: Hyaluronic acid is a water-binding molecule (known as a type of glycosaminoglycan) found abundantly in the skin. It works by attracting large amounts of water molecules and holding them in the skin, which is essential for maintaining skin moisture balance and plumpness. It hydrates the skin, protects the skin barrier, and provides anti-aging effects. It provides moisture-preserving benefits in cleansing products.

Zinc PCA: Zinc and PCA are synergistic. The zinc portion helps normalize sebum production and limit the proliferation of harmful bacteria that cause acne. L-PCA stands for pyrrolidone carboxylic acid and is a key molecule that helps with hydration and energy processes in the skin. It balances sebum secretion and offers a purifying effect.

Centella Asiatica: Prevents irritation, repairs the skin barrier. Provides soothing and relaxing effects.

Centella Asiatica, also known as Gotu Kola, is a plant native to Asia. Centella is frequently used in many Asian countries, especially in the kitchen and in health and beauty areas, due to its numerous benefits. The most important components of the plant are called triterpenoids saponins. It has four isolated compounds called asiaticoside, asiatic acid, madecassic acid and madecassoside. It is generally used as Centella Asiatica extract in formulations.

Centella Asiatica extract is able to penetrate the skin sufficiently to be used effectively and has been known to treat wounds and burns for centuries. This has been shown in both in vitro and in vivo studies supporting its effectiveness in wound healing. The way it does this is by promoting fibroblast proliferation and collagen synthesis, as well as inhibiting the inflammatory phase of scars. It has also been observed that its triterpenoid components stimulate the production of glycosaminoglycans, particularly hyaluronic acid.

Citrus Grandis: Grapefruit contains antioxidants, vitamin C, minerals and enzymes. It helps purify and revitalize the skin without irritating the pores.

Niacinamide: Niacinamide, also known as nicotinamide, is vitamin B3. It balances oil secretion, regulates skin tone, and gives a bright appearance.

Aloe Barbadensis: Aloe vera, a succulent plant native to Africa, is frequently used in the health and beauty world. It contains 75 potentially active ingredients: vitamins, enzymes, minerals, sugars, lignin, saponins, salicylic acids and amino acids.

Aloe Vera soothes, moisturizes, and provides softness and elasticity to the skin. Aloe Vera has an anti-inflammatory effect on the skin. It prevents irritation and helps repair the skin.

CLARIFY

GLYCOLIC TONER

This special formula, enriched with revitalizing herbal ingredients, antioxidant components and amino acids, refreshes the skin and helps maintain its moisture balance. It offers a bright and radiant appearance.

Key Benefits:

Ingredients / İçerikler

Moisturizing: Panthenol (Provitamin B5) provides deep moisturizing of the skin. With its moisturizing effect, it strengthens the skin barrier, prevents water loss and increases the elasticity of the skin. Aloe Vera moisturizes and soothes the skin with its high water content, contributing to the skin being smoother and more elastic. Lactic Acid increases the moisture retention capacity of the skin, providing a softer and more moist skin. Amino Acids protect the skin's natural moisture balance, preventing dryness and strengthening the skin barrier.

Revitalization: Guarana revitalizes the skin with its high caffeine content and gives it an energetic appearance. It increases the blood circulation of the skin and provides a more lively and fresh appearance. Goji Beri nourishes and revitalizes the skin with its vitamin and mineral rich content. Glycolic Acid accelerates skin renewal by cleaning dead cells on the skin surface and provides a fresher appearance. Sage balances excess oil in the skin and makes the skin look cleaner and healthier.

Antioxidant: Glutathione, as a powerful antioxidant, neutralizes free radicals and protects the skin from environmental stress factors. Vitamin C prevents premature aging of the skin by fighting against free radicals and improves skin texture. Grape Seed Extract protects the skin from the damage of free radicals with its antioxidant properties and increases the elasticity of the skin. St. John's Wort soothes and heals the skin with its anti-inflammatory and antioxidant properties. Niacinamide protects the overall health of the skin by strengthening the skin barrier and provides protection against free radicals.

Brightening: Arbutin inhibits melanin production, evens skin tone and reduces the appearance of dark spots. Vitamin C inhibits melanin synthesis, brightens skin tone and provides a more even appearance. Glutathione reduces hyperpigmentation and evens skin tone. Poppy Extract brightens skin and gives a natural glow. Niacinamide evens skin tone, reducing the appearance of acne scars and dark spots.

How to use:

Apply gently to skin using a cotton pad.

Use morning and/or evening

Glycolic Acid: Glycolic acid is an alpha hydroxy acid (AHA) that accelerates skin renewal by breaking down dead cells in the upper layers of the skin. This acid is easily absorbed by the skin thanks to its small molecule structure and penetrates deep into the epidermis. It reduces the appearance of fine lines and wrinkles by encouraging collagen production in the skin. In addition, with regular use, it improves skin texture and tone, and reduces hyperpigmentation. Glycolic acid is also effective in treating acne, cleansing pores and preventing blockages.

Amino Acids: Amino acids act as building blocks for the skin's natural proteins and play a critical role in maintaining skin health. They strengthen the skin barrier, reduce transepidermal water loss and maintain the skin's moisture balance. These components increase skin elasticity, providing a firmer and more flexible appearance. They also support the repair of damaged skin tissues and increase the skin's overall resistance. Amino acids strengthen the skin's defense mechanisms and protect against external factors.

Niacinamide: Niacinamide is vitamin B3 and is known for its versatile benefits in skin care. Thanks to its anti-inflammatory properties, it soothes skin conditions such as acne and rosacea and reduces swelling. It controls excessive shine in oily skin by balancing sebum production. It also reduces the appearance of hyperpigmentation and spots by inhibiting melanin production, and evens out skin tone. Niacinamide strengthens the skin barrier and increases the skin's ability to retain moisture, resulting in a healthier and more vibrant skin.

Salisilik Asit: Salisilik asit, yağda çözünebilen bir beta hidroksi asittir (BHA) ve gözeneklerin derinliklerine nüfuz ederek tıkanıklıkları temizler. Antibakteriyel ve anti-inflamatuvar özellikleri sayesinde akneye neden olan bakterileri yok eder ve akne oluşumunu önler. Cilt yüzeyindeki ölü hücreleri eksfoliye eder, bu da daha pürüzsüz ve berrak bir cilt sağlar. Düzenli kullanımda, salisilik asit cilt dokusunu iyileştirir ve cilt tonunu eşitler. Ayrıca, siyah nokta ve beyaz nokta oluşumunu azaltarak daha temiz bir cilt görünümünü sunar.

Zinc PCA: Zinc PCA regulates sebum production in the skin, providing balance in oily skin and preventing acne formation. With its antibacterial properties, it eliminates harmful microorganisms on the skin and helps the skin stay clean. Zinc reduces redness and irritation on the skin with its anti-inflammatory effects. It also strengthens the skin barrier, prevents moisture loss and supports the skin's natural defense mechanism. Zinc PCA protects the skin's overall health while also providing a more matte and balanced skin appearance.

Arbutin: Arbutin is a naturally occurring hydroquinone derivative that helps reduce hyperpigmentation in the skin by inhibiting melanin synthesis.

It specifically targets pigmentation problems such as sun spots, age spots and acne scars. Arbutin brightens the skin and provides a more even skin tone. It protects the skin from free radical damage with its antioxidant properties. In addition, arbutin is suitable for sensitive skin and offers effective results without causing irritation.

Glutathione: Glutathione is a powerful antioxidant found naturally in the skin, protecting cells from free radical damage. It evens out skin tone and reduces the appearance of dark spots by inhibiting melanin production. At the same time, glutathione supports the skin's detoxification processes and accelerates cellular renewal. This ingredient increases skin elasticity, providing a younger, healthier appearance. Glutathione delays signs of aging and improves the overall health of the skin.

Lactic Acid: Lactic acid belongs to the alpha hydroxy acid (AHA) group and gently exfoliates the skin, removing dead cells. This process helps the skin look brighter and smoother. Lactic acid also increases the skin's moisture retention capacity and strengthens the skin barrier. It creates a healthier skin environment by regulating the skin's pH balance. With regular use, it reduces the appearance of fine lines and wrinkles, improves skin texture and evens out skin tone.

Vitamin C: Vitamin C is a powerful antioxidant that fights free radicals and supports the skin's natural repair processes. It reduces dark spots and hyperpigmentation by inhibiting melanin production, and evens out skin tone. It maintains skin elasticity and firmness by increasing collagen synthesis, thus reducing the appearance of fine lines and wrinkles. Vitamin C also reduces inflammation in the skin and improves skin texture. With regular use, skin becomes brighter, younger and healthier.

Sage: Sage is known for its anti-inflammatory and antibacterial properties and soothes the skin, reducing irritation. It helps control excess oil production in the skin, thus contributing to the prevention of acne and other skin problems. Sage also has antioxidant properties, fighting free radicals and supporting the skin in the fight against environmental damage. It strengthens the skin barrier and increases the skin's moisture retention capacity. Sage extract protects the skin's overall health and provides a clearer, more balanced complexion.

Aloe Vera: Aloe vera deeply moisturizes and soothes the skin, reduces irritation and redness with its anti-inflammatory properties. It accelerates the renewal of skin cells and supports the repair of damaged tissues. Aloe vera strengthens the skin's natural barrier and prevents moisture loss, making the skin healthier and more elastic. It protects the skin from free radical damage with its antioxidant properties. Aloe vera is effective in treating skin damage such as sunburn and promotes skin renewal.

St. John's Wort: St. John's Wort extract has strong anti-inflammatory and antimicrobial properties and soothes the skin and reduces irritation. It accelerates the healing of wounds and burns on the skin and supports cellular renewal. St. John's Wort maintains the skin's moisture balance and strengthens the skin barrier. In addition, its antioxidant properties protect the skin from free radical damage. St. John's Wort extract is ideal for sensitive and irritated skin and helps the skin to appear healthier and more balanced.

Guarana: Guarana, thanks to its high caffeine content, revitalizes the skin and gives it an energetic appearance. Rich in antioxidants, guarana protects the skin from environmental stress factors by fighting free radicals. It increases blood circulation, making the skin look more vibrant and fresh. Guarana encourages skin cell renewal and improves skin texture. It also reduces the appearance of fine lines and wrinkles on the skin, thus providing a younger skin appearance.

Goji Beri: Goji berry is rich in vitamins, minerals and antioxidants, nourishes and moisturizes the skin. It slows down the skin aging process by reducing the damage caused by free radicals. Goji berry accelerates the renewal of skin cells and improves skin texture. It also evens out skin tone and gives a brighter appearance. Goji berry increases skin elasticity and strengthens the skin barrier, so skin looks healthier and younger.

Grape Seed: Grape seed extract is known for its powerful antioxidant properties and protects the skin against free radical damage. It increases the elasticity of the skin and tightens it, thus providing a younger and healthier skin appearance. Grape seed supports the renewal of skin cells and improves skin texture. It reduces redness and irritation on the skin with its anti-inflammatory properties. It also evens out the skin tone and provides a brighter skin appearance.

Poppy: Poppy extract soothes and moisturizes the skin, reducing irritation and redness with its anti-inflammatory properties. It strengthens the skin's natural barrier and prevents moisture loss, making the skin healthier and more elastic. It protects the skin from free radical damage with its antioxidant properties. Poppy extract improves the overall health of the skin and provides a brighter, more balanced complexion. It also promotes skin cell renewal and improves skin texture.

Panthenol: Panthenol, also known as provitamin B5, deeply moisturizes the skin. It strengthens the skin barrier, reduces irritation and supports the skin's renewal process. Panthenol accelerates the repair of skin cells, resulting in a healthier and smoother complexion. Its anti-inflammatory properties reduce redness and irritation on the skin. It also increases skin elasticity and improves skin texture, making the skin softer and more flexible.

ILLUMINATING Intensive Brightening Serum is specially formulated to target a variety of skin concerns, including hyperpigmentation, darkening, dullness and uneven skin tone. This versatile serum is suitable for all skin types and fits into your daily skincare routine to reveal a luminous, even-toned complexion.

Dermatologically tested.

Key Benefits:

Brightening and Equalizing Skin Tone: The powerful combination of ARBUTIN, NIACINAMIDE and ASCORBIC ACID (Vitamin C) is maximally effective against hyperpigmentation. Arbutin helps reduce the appearance of dark spots and discoloration by inhibiting melanin production. Niacinamide brightens the skin, while Vitamin C evens out overall skin tone for a radiant glow.

Moisturizing and Nourishing: HYALURONIC ACID, CERAMIT III and ALOE VERA provide deep hydration and help strengthen the skin's natural moisture barrier. This combination helps lock in moisture, leaving your skin plump and supple.

Collagen Synthesis: The addition of HYDROLYZED COLLAGEN stimulates collagen synthesis, supports skin elasticity and minimizes the appearance of fine lines and wrinkles. This results in a younger and firmer skin.

Antioxidant: Antioxidants like GLUTATHIONE, TOCOPHEROL (Vitamin E) and TOCOPHERYL ACETATE (derivative of Vitamin E) fight free radicals, protecting your skin from environmental damage and premature aging.

Soothing and Calming: TEA TREE, ST JOHN'S WORT FLOWER and CENTELLA ASIATICA (GOTU KOLA) extracts work together to soothe and comfort irritated skin, reducing redness and inflammation.

Revitalizing with Plant Essences: This special serum is enriched with GRAPEFRUIT, OAT, TURMERIC, Liquorice, Lycopene and Grape Seeds extracts. It nourishes your skin and gives vitality.

Skin Renewal and Repair: RETINOL, SNAIL SECRETION FILTRATE and SQUALENE content help skin cell renewal, repair and regeneration, providing smoother and younger looking skin.

Each ingredient in ILLUMINATING Blemish Serum has been carefully selected to provide maximum benefits for your skin, individually and synergistically.

How to use:

1. Thoroughly cleanse and dry your face. Use CLARIFY Cleansing Gel for cleansing.
2. Apply a small amount of ILLUMINATING Intensive Brightening Serum to your face and neck, avoiding the eye area.
3. Gently massage the serum into your skin using upward and outward strokes.
4. Allow the serum to fully absorb before applying moisturizer and sunscreen (especially during the day).

LIPOSOMAL TECHNOLOGY

Improved Distribution of Active Ingredients: Liposomes can encapsulate active ingredients such as vitamins, antioxidants, and moisturizers. This encapsulation helps protect ingredients from degradation and increases their stability. Additionally, liposomes can improve the delivery of these active ingredients to target areas of the skin, potentially increasing their effectiveness.

Improved Skin Penetration: Liposomes can penetrate the outer layer of the skin (stratum corneum) more efficiently than regular cosmetic formulations. This improved penetration can lead to better absorption of beneficial compounds and potentially provide better results.

Controlled Release: Liposomal technology provides controlled release of active ingredients over time. This controlled delivery can prolong the effects of the product and reduce the risk of irritation that can occur with high concentrations of certain ingredients.

Moistening: Liposomes themselves can act as humectants by forming a barrier on the skin's surface, helping to prevent water loss and keep the skin moist.

Targeted Application: Liposomes can be designed to deliver active ingredients specifically to specific skin layers or skin conditions, allowing for targeted treatments.

Liposomal technology has been researched and used in the pharmaceutical and cosmetic industries to improve the delivery and absorption of various compounds.

In brightening formulas, liposomes help active ingredients penetrate the skin, potentially increasing their effectiveness.

REVEAL MD Intensive Brightening Serum uses liposomal technology to formulate Retinol, Vitamin C and Licorice root.

PLANT STEM CELL TECHNOLOGY

Stem cells are undifferentiated cells that have the potential to develop into various cell types in the body. In the context of plants, stem cells are responsible for continuous growth and renewal.

The idea behind incorporating plant stem cells into cosmetics is that they have beneficial properties for the skin due to their ability to promote renewal and repair.

Stem cells are obtained from leaves, roots or other parts of plants that have beneficial properties for the skin. These plants are usually chosen for their ability to survive harsh environmental conditions, which can provide protective benefits for the skin. After the plant stem cells are extracted, they are cultured in a laboratory environment to allow them to proliferate and produce more cells. During the culture process, plant stem cells can release bioactive compounds such as antioxidants, peptides and growth factors that can have positive effects on the skin. Isolated bioactive compounds are incorporated into skin care formulas.

With antioxidant effects and skin regenerative properties, plant stem cells offer high benefits to care products.

Lycopene **stem cell** is used in the **REVEAL MD Intensive Brightening Serum formula**.

Ingredients

Arbutin: Arbutin reduces tyrosinase activity and prevents melanosome maturation. It is a natural compound included in lightening creams for its skin-lightening properties, lightening the appearance of dark spots and hyperpigmentation. When applied topically, arbutin inhibits the activity of tyrosinase, an enzyme involved in the production of melanin, which is responsible for skin pigmentation. By limiting melanin production, arbutin helps to even out skin tone and provide a more radiant complexion. Unlike some other skin-lightening agents, arbutin is considered gentler and safer for a variety of skin types.

Niacinamide: Niacinamide, also known as vitamin B3, has multiple effects that contribute to a brighter, more even complexion. Niacinamide helps block the transfer of melanin from melanocytes (cells responsible for producing melanin) to the outer layers of the skin, thus reducing the appearance of dark spots and hyperpigmentation. Additionally, it helps restore the skin's natural barrier function, improving moisture retention and overall hydration. The result is smoother, healthier-looking skin. It also has anti-inflammatory properties that can help soothe redness and reduce the appearance of blemishes. With its versatility and compatibility with a variety of skin types, Niacinamide provides a vibrant, radiant complexion with regular use.

Hydrolyzed Collagen: Collagen is a protein found naturally in the skin, responsible for maintaining its firmness and elasticity. However, as we age, collagen levels decrease, leading to fine lines and loss of elasticity. Hydrolyzed collagen is broken down into smaller peptides that are more easily absorbed by the skin. When applied topically, it helps to replenish and increase collagen levels, supports improved skin elasticity and reduces the appearance of fine lines and wrinkles. It has excellent moisture retention properties. It helps to restore skin to its ideal state while also contributing to the overall brightening effect of the cream.

Hyaluronic Acid: It is a naturally occurring substance in the body and is known for its exceptional water retention ability. In brightening care products, hyaluronic acid works as a humectant, attracting and binding moisture to the skin's surface, providing intense hydration. This increased hydration helps improve the skin's texture, making it smoother and more supple. Hyaluronic acid helps reduce dryness and fine lines, contributing to a brighter complexion and creating an illuminating effect. In addition, well-hydrated skin reflects light better, further increasing the skin's radiance.

Sodium Ascorbyl Phosphate (SAP): It is a stable, water-soluble derivative of vitamin C. When applied topically, SAP is converted into active vitamin C in the skin and helps reduce the production of melanin, the pigment responsible for dark spots and hyperpigmentation. By inhibiting melanin synthesis, SAP helps reduce existing dark spots and prevent the formation of new ones, resulting in a more even and bright complexion. SAP is also a powerful antioxidant that protects the skin from environmental damage caused by free radicals and UV exposure. With its stability and ability to easily penetrate the

skin, regular use of brightening formulas containing Sodium Ascorbyl Phosphate leads to a visibly brighter, smoother and more youthful complexion.

Ascorbic Acid: Vitamin C inhibits the action of the tyrosinase enzyme by interacting with copper in the active site of tyrosinase. Inhibition of the enzyme reduces the conversion of dopaquinone to DOPA, thus suppressing melanogenesis [14]. It also acts as a photoprotector against both UVA and UVB by inhibiting the production of ROS that trigger melanogenesis. Ascorbic acid, also known as vitamin C, has transformative effects on skin tone and texture. It plays a vital role in inhibiting the production of melanin, the pigment responsible for dark spots and hyperpigmentation. It helps lighten existing dark spots and prevent the formation of new ones by reducing melanin synthesis. In addition, vitamin C is known for its ability to stimulate collagen production, promoting skin elasticity and firmness, which can further increase the overall brightness of the skin. It protects the skin from environmental damage and premature aging by neutralizing free radicals with its powerful antioxidant effect. It can significantly contribute to a brighter, smoother and more youthful appearance with regular use.

Retinol: A derivative of vitamin A, it is a powerful ingredient often found in brightening creams due to its remarkable effects on skin texture and tone.

A powerful retinoid, retinol stimulates skin cell turnover, encouraging the removal of old, dull skin cells and the growth of new, healthier ones. This process helps improve skin texture, making it smoother and more refined. Retinol also has the ability to reduce dark spots and hyperpigmentation by inhibiting melanin production and evening out skin tone. It also helps reduce the appearance of fine lines and wrinkles by stimulating collagen production. When used appropriately in a brightening cream, retinol can deliver impressive results in brighter, more radiant skin.

Lecithin: Derived from soybeans or sunflower seeds, lecithin contains essential fatty acids that help to moisturize and nourish the skin, improving its overall texture and elasticity. In brightening creams, the emulsifying properties of lecithin help to create a smooth, creamy consistency by ensuring that the active ingredients are evenly distributed across the skin's surface. Additionally, lecithin forms a protective barrier that helps prevent moisture loss and provides long-lasting hydration. This enhanced hydration can improve the skin's texture, contributing to a more radiant complexion. Additionally, lecithin's natural compatibility with skin makes it suitable for a variety of skin types, including sensitive skin. Including lecithin in brightening formulas increases the effectiveness of the product while providing valuable hydration and nourishment to the skin.

Glutathione: As a powerful antioxidant, glutathione helps neutralize free radicals, which are harmful molecules that can cause skin damage and contribute to hyperpigmentation. It helps block the production of melanin, the pigment responsible for skin color, which can help reduce dark spots and hyperpigmentation.

Lycopene: Domates ve karpuz gibi kırmızı ve pembe meyvelerde bulunan doğal bir pigment olan likopen, aydınlatıcı kremlere dahil edildiğinde umut verici etkileri olan güçlü bir antioksidandır. Cilt hasarına ve eşit olmayan cilt tonuna yol açabilen zararlı serbest radikalleri nötralize etmeye yardımcı olur. Oksidatif stresle mücadele etme yeteneği, yaşlılık lekelerinin, güneş lekelerinin ve diğer hiperpigmentasyon biçimlerinin görünümünü azaltarak daha net ve daha parlak bir ten rengi sunar. Ayrıca, likopenin anti-enflamatuar özellikleri kızarıklık ve tahrişi yatıştırarak daha eşit ve parlak bir cilt tonuna katkıda bulunur.

Ceramide III: Cildin dış tabakasında doğal olarak bulunan bir tür lipit molekülü olan Seramid 3, cilt bariyerini güçlendirmeye, nem kaybını azaltmaya ve cildin su tutma yeteneğini artırmaya yardımcı olur. Seramid 3 cilt nemini iyileştirerek daha pürüzsüz ve daha esnek bir görünüme katkıda bulunur, bu da cildin daha ısıtılı ve daha genç görünmesini sağlar.

Centella Asiatica: Gotu kola veya kaplan otu olarak da bilinen Centella Asiatica, sayısız cilt faydasına sahip güçlü bir bitkisel bileşendir. Bu bitki özü, antioksidanlar açısından zengindir ve cilt onarımını ve kolajen üretimini destekleyen, cildin elastikiyetini ve sıkılığını artıran aktif bileşikler içerir. İltihaplanmayı azaltmaya ve tahriş olmuş cildi yatıştırmaya yardımcı olarak daha sakin ve daha eşit bir cilt yaratır. Ek olarak, kan dolaşımını uyarma özelliği, doğal bir ısıltıya ve daha parlak bir görünüme katkıda bulunabilir. Centella asiatica, cilt yenilenmesini destekler; koyu lekelerin ve hiperpigmentasyonun görünümünü azaltarak cildin genel parlaklığını ve ısıltısını arttırmada önemli bir rol oynar.

Lemon, Grapefruit, Oat, Turmeric: Aydınlatıcı ve cildi iyileştirici özellikleriyle bilinen doğal bileşenlerin güçlü bir kombinasyonunu sunar. Limon ve greyfurt özleri, cildi eksfoliye eden, ölü cilt hücrelerinin atılmasını destekleyen ve altında daha parlak bir cilt ortaya çıkaran doğal alfa hidroksi asitler (AHA'lar) içerir. Yulaf özü cildi yatıştırır ve nemlendirir, tahriş ve kızarıklığı azaltır. Meyan kökü özü, koyu lekelerin ve hiperpigmentasyonun azalmasına yardımcı olan cilt aydınlatıcı özelliklere sahipken, Zerdeçal, genel cilt tonunu ve parlaklığını iyileştirebilen anti-enflamatuar ve antioksidan yararları ile bilinir. Bu bitkisel içerikler birlikte cilt tonunu eşitlemek, lekeleri azaltmak, parlak ve genç bir görünüm sağlamak için sinerjik olarak çalışır. Bu bitkisel karışımın doğal yapısı, hassas cilde sahip olanlar için de nazik bir seçenek olmasını sağlar.

Glycyrrhiza Glabra: Yaygın olarak meyan kökü olarak bilinir, olağanüstü cilt aydınlatma özellikleri nedeniyle genellikle yüz aydınlatıcı serumlara dahil edilen güçlü bir botanik özüdür. Bu doğal bileşen, melanin üretiminden sorumlu bir enzim olan tirozinazı inhibe eden güçlü bir bileşik olan glabridin içerir. Glycyrrhiza Glabra Root, melanin sentezini azaltarak koyu lekelerin, hiperpigmentasyonun ve eşit olmayan cilt tonunun görünümünü azaltmaya yardımcı olur ve sonuç olarak daha parlak ve parlak bir cilt sağlar. Ayrıca antiinflatuar ve antioksidan özellikleri ciltte yatıştırıcı etki, kızarıklık ve tahrişi yatıştırır. Glycyrrhiza Glabra Root, yüz aydınlatıcı bir seruma dahil edildiğinde daha eşit, canlanmış ve genç görünen bir cilde katkıda bulunur ve onu herhangi bir cilt bakım rejimine değerli bir katkı haline getirir.

Squalene: Çeşitli bitki yağlarında bulunan doğal bir lipit bileşimidir ve mükemmel nemlendirme ve cilt besleyici etkileri bulunur. Güçlü bir yumuşatıcı olarak skualen, cildin derinlemesine nemlenmesine yardımcı olarak cilt dokusunu ve esnekliğini geliştirir. Erken yaşlanmaya ve hiperpigmentasyona katkıda bulunabilen serbest radikal hasarından korumaya yardımcı olan antioksidan özelliklere sahiptir. Bol miktarda nemlendirme sağlayarak ve cildin çevresel stres faktörlerine karşı savunmasını güçlendiren skualen, aydınlatıcı formüllerde kullanıldığında parlak ve ısıtılı bir görünüm elde etmeye yardımcı olur. Komedojenik olmayan doğası, hassas veya akneye eğilimli ciltler de dahil olmak üzere tüm cilt tipleri için uygun hale getirir ve skualeni aydınlatıcı cilt bakımı rutinlerine değerli bir katkı yapar.

Tocopherol Ve Tocopheryl Acetate: Güçlü antioksidan ve cilt besleyici özellikleri nedeniyle genellikle aydınlatıcı kremlere dahil edilen E vitamini formlarıdır. Antioksidanlar olarak, hem tokoferol hem de tokoferil asetat serbest radikalleri nötralize ederek cildi çevresel hasarlardan korur ve erken yaşlanmayı önler. Aydınlatıcı formüllerde, antioksidan etkileri ince çizgilerin, kırışıklıkların ve koyu lekelerin görünümünün azalmasına yol açarak daha düzgün ve genç bir cilt oluşmasını sağlar. Ek olarak, E vitamini, cildin bariyerini güçlendirir, cildin nemini korumaya yardımcı olur.

Snail Secretion: Proteinler, glikolik asit ve hyaluronik asit açısından zengin salyangoz salgı filtratı cilt için birçok fayda sunar. Aydınlatıcı formüllerde, cildin yenilenmesini desteklemeye ve hasarlı dokuları onarmaya yardımcı olarak daha pürüzsüz ve daha eşit bir cilt sağlar.

NO-AC

INTENSIVE PURIFYING CREAM

It is a daily moisturizer specially formulated for oily and acne-prone skin. It moisturizes the skin without making it oily; it is effective against blackheads, pimples and acne-like skin problems. It supports soothing the skin that is reactive due to skin imperfections. It helps balance oil secretion and provides a mattifying effect. It provides a lively, bright and smooth appearance.

Dermatologically tested.

- Salicylic Acid
- Zinc PCA
- Tea Tree Oil
- Centella Asiatica

50 ml

Key Benefits:

Anti-inflammatory and antibacterial: Salicylic acid is a beta hydroxy acid. It helps prevent acne, pimples and blackheads by keeping pores clean with its exfoliant effect that cleanses the skin from dead cells.

Against acne and related skin problems: TEA TREE OIL has strong antibacterial, antimicrobial and anti-inflammatory effects. It offers effective care against acne and related skin problems. It is non-comedogenic, does not clog pores, on the contrary, it has a purifying effect. In addition, it helps rejuvenate the skin thanks to its antioxidant properties.

Repairing the skin barrier: CENTELLA ASIATICA has been shown to reduce skin irritation by repairing the skin barrier function. Its components help reduce redness, inflammation, and relieve itchy skin due to their soothing and healing properties. This is one of the reasons it is used in products for sensitive and acne-prone skin. It speeds up healing, improves overall acne severity, and prevents future blemishes and scars.

Against acne spots and redness: Niacinamide, also known as nicotinamide, is vitamin B3 and has an anti-acne effect. It is an anti-inflammatory that works to reduce the swelling and redness associated with acne. It helps balance oil secretion. It also evens out skin tone and is effective against the redness and blemishes that acne can leave on the skin.

Limiting the proliferation of bacteria: Zinc PCA is a synergistic combination of Zinc and PCA. The zinc portion helps normalize sebum production and limit the proliferation of harmful bacteria that cause acne. L-PCA stands for pyrrolidone carboxylic acid and is a key molecule that helps with hydration and energy processes in the skin.

Antioxidant: Tocopheryl Acetate is the stable form of Vitamin E. It protects cell membranes from free radical damage with its strong antioxidant effect. It helps prevent premature aging of the skin caused by UV radiation and lipid peroxidation. Vitamin E is supportive in acne treatments with its anti-inflammatory effect.

How to use:

1. Cleanse and dry your face thoroughly. Use CLARIFY Cleansing Gel for cleansing.
2. Apply a small amount of NO-AC Intensive Purifying Cream to your face and neck, avoiding the eye area.
3. Gently massage the cream into your skin with upward and outward movements.
4. Wait for the cream to be completely absorbed before applying sunscreen (especially during the day).

Ingredients

Salicylic Acid: It is a beta hydroxy acid with anti-inflammatory and antibacterial properties. It helps prevent acne, pimples and blackheads by keeping pores clean with its exfoliant effect that cleanses the skin from dead cells. Acne occurs when excess oil and dead skin cells clog the pores in the skin.

Bacteria can also get trapped inside the pore, causing inflammation and pus-filled pimples. Salicylic acid works to treat acne by opening clogged pores. It does this by breaking down the bonds between dead skin cells and sebum so they can be more easily released from the pores. It also reduces sebum production and supports the skin to achieve its ideal condition by balancing oil secretion.

Salicylic acid also provides preventive and restorative effects against papules, oil glands, blackheads, post-acne erythema (redness), and hyperpigmentation (blemishes).

Zinc PCA: Synergistic combination of zinc and PCA. The zinc portion helps normalize sebum production and limit the proliferation of harmful bacteria that cause acne. L-PCA stands for pyrrolidone carboxylic acid and is a key molecule that helps with hydration and energy processes in the skin. Zinc PCA (or "zinc salt") has a strong effect against acne and pimples. It helps reduce redness and sebum secretion. It supports the general healing process of the skin.

Tea Tree Oil: This active ingredient contains around 100 components and has strong antibacterial, antimicrobial and anti-inflammatory effects. It offers effective care against acne and related skin problems. It is non-comedogenic, does not clog pores, on the contrary, it has a purifying effect. In addition, it helps rejuvenate the skin thanks to its antioxidant properties.

Niacinamide: Niacinamide, also known as nicotinamide, is vitamin B3 and has anti-acne effects. It is an anti-inflammatory that works to reduce the swelling and redness associated with acne. It helps balance oil secretion. It also evens out skin tone and is effective against the redness and blemishes that acne can leave on the skin.

Centella Asiatica: The most important components of the Centella Asiatica Plant are called triterpenoid saponins. It has four isolated compounds called asiaticoside, asiatic acid, madecassic acid and madecassoside. It is generally used as Centella Asiatica extract in formulations. In addition to promoting fibroblast proliferation and collagen synthesis, it inhibits the inflammatory phase of scars. In addition, triterpenoid components have been observed to stimulate the production of glycosaminoglycans, especially hyaluronic acid. Centella Asiatica has been determined to reduce skin irritation by repairing the skin barrier function. Its components help reduce redness, inflammation and relieve itchy skin due to their soothing and healing properties. This is one of the reasons why it is used in products for sensitive and acne-prone skin. It accelerates healing, reduces the severity of overall acne and prevents future spots and scars.

Tocopheryl Acetate: It is the stable form of Vitamin E. It protects cell membranes from free radical damage with its strong antioxidant effect. It helps prevent premature aging of the skin caused by UV radiation and lipid peroxidation. Vitamin E supports acne treatments with its anti-inflammatory effect.

ALL SUN DAY

SUN CREAM SPF 50+

All Sun Day helps protect the skin against the harmful UVA and UVB rays of the sun with its special formula that offers very high protection. It also moisturizes, nourishes the skin and offers anti-aging effects. This cream, which does not leave an oily feeling or whiteness on the skin, is suitable for all skin types. Acne skin can also use it safely. It offers effective and comfortable protection for your sun pleasure with its pleasant texture.

50 ml

Key Benefits:

Active Ingredient: BENZOPHENONE-3 is a sweet-smelling organic compound found naturally in grapes and other fruits. The compound is used in UV-filtering sunscreens. The U.S. Food and Drug Administration (FDA) has approved benzophenone-3 (BP3), also known as oxybenzone, as an active ingredient in sunscreen. Additionally, the expert scientific panel of the Cosmetic Ingredient Review (CIR) has determined that benzophenone and its derivatives (benzophenone -1, -3, -4, -5, -9, and -11) are safe for use in cosmetics and personal care products.

Moisturizer: **FOCUS PHOSPHOLIPIDS** added to the product content keep the skin moist and plump.

Barrier Protection: **OCTYLDODECANOL** reduces water loss by forming a protective layer on the skin.

It gives the skin a soft and smooth appearance, this process helps the skin to remain moist.

Antioxidant: Tocopheryl Acetate; It is the stable form of Vitamin E. Vitamin E protects cell membranes from damage by free radicals with its strong antioxidant effect. It helps prevent premature aging of the skin caused by UV radiation and lipid peroxidation.

FDA: It has confirmed the safety and effectiveness of sunscreens and their ingredients, including nanoscale titanium dioxide.

Titanium dioxide works as a UV-filtering ingredient in sunscreen – it helps protect a person's skin by blocking the absorption of the sun's ultraviolet light, which can cause sunburn and is also linked to skin cancer.

According to the Skin Cancer Foundation, using sunscreens containing titanium dioxide may help prevent skin cancer.

How to use:

1. Thoroughly cleanse and dry your face. Preferably use CLARIFY Cleansing Gel for cleansing.
2. Apply a small amount of NO-AC Intensive Purifying Cream or ILLUMINATING Intensive Brightening Serum to your face and neck, avoiding the eye area.
3. Gently massage the cream into your skin with upward and outward movements.
4. Wait for the creams and serums you apply to your skin to be completely absorbed before applying ALL SUN DAY Sunscreen.

Ingredients

Benzophenone-3: Benzophenone is a sweet-smelling organic compound found naturally in grapes and other fruits. The compound is used in UV-filtering sunscreens.

The U.S. Food and Drug Administration (FDA) has approved benzophenone-3 (BP3), also known as oxybenzone, as an active ingredient in sunscreen. Additionally, the Cosmetic Ingredient Review (CIR) expert scientific panel has determined that benzophenone and its derivatives (benzophenone -1, -3, -4, -5, -9, and -11) are safe for use in cosmetics and personal care products.

Butyrospermum / Parkii Butter: It softens and moisturizes the skin. It provides protective support in both intense summer and winter months and dry climates by creating a natural shield against UVA and UVB rays. If applied after sun exposure, it can also extend the life of your tan.

Phospholipids: Helps moisturizing ingredients penetrate into the skin.

Phospholipids are truly key when it comes to healthy, hydrated skin. Whether you have dry or irritated skin or face colder climates, the focus phospholipids added to the product ingredients will keep skin hydrated and plump.

Octyldodecanol: It is obtained from vegetable oils. It reduces water loss by forming a protective layer on the skin. It gives the skin a soft and smooth appearance, this process helps the skin to stay moist.

Tocopheryl Acetate: It is the stable form of Vitamin E. Vitamin E protects cell membranes from free radical damage with its strong antioxidant effect. It helps prevent premature aging of the skin caused by UV radiation and lipid peroxidation.

Titanium Dioxide: Titanium, the ninth most common element in the Earth's crust, is a metal commonly found in plants and animals.

Titanium dioxide works as a UV-filtering ingredient in sunscreen – it helps protect a person's skin by blocking the absorption of the sun's ultraviolet light, which can cause sunburn and is also linked to skin cancer.

According to the Skin Cancer Foundation, using sunscreens containing titanium dioxide may help prevent skin cancer.

The U.S. Food and Drug Administration (FDA) has evaluated the safety of titanium dioxide pigment as a color additive in food, drug, and cosmetic applications. It has stated that titanium dioxide is safe to use in cosmetics, including cosmetics intended for use around the eyes.

The FDA also regulates and approves the safety and effectiveness of sunscreens and their ingredients, including nanoscale titanium dioxide.

ALL ABOUT BODY

BODY SHAPING LOTION

What do we want from body care products? Moisturize, nourish, tighten, slim, shape our skin, eliminate skin imperfections such as cellulite and stretch marks. We usually use more than one product for all these. Now, thanks to Reveal MD's special formula All About Body, all our wishes will come true with a single product. All About Body offers multiple effects in a single product with its special formula containing caffeine, grapefruit, forskolin, rosemary and horse chestnut. It moisturizes the body all day long and revitalizes the skin. It helps to tighten and shape the body. It helps to prevent loss of elasticity and the appearance of orange peel. It offers a smooth look and comfort.

Key Benefits:

Fat Burning: Caffeine; stimulates enzymes that break down fats in topical use, is effective against cellulite, helps prevent crack formation.

Firming: Coleus Forskohlii Root Extract; offers thinning, firming and anti-cellulite effects in topical applications.

Anti-Cellulite Effect: Rosmarinus Officinalis Leaf Extract; helps accelerate blood circulation and prevent cellulite formation.

Circulatory Protection: Aesculus Hippocastanum Extract; helps maintain healthy blood circulation and strengthen capillaries.

Effect Against Acne Formation in the Body: Citrus Grandis Extract; Renews, nourishes and tightens the skin. It is antibacterial. It also helps prevent acne formation.

Antioxidant: Tocopheryl Acetate; It is the stable form of Vitamin E. With its strong antioxidant effect, it protects cell membranes from free radical damage.

Moisturizer: Prunus Amygdalus Dulcis Oil; It is a softening plant oil obtained from almonds. It contains beneficial fatty acids that nourish the skin (oleic acid - 55-86% and linoleic acid 7-35%) and antioxidant vitamin E. It has excellent softening and moisturizing properties. It nourishes, renews and soothes the skin.

Usage: It is applied to the body as a daily care. It is recommended to apply once a day or twice for intensive treatments.

✓ **Moisturizes and softens the skin. Provides complete body care with a single product.**

✓ **Intensively nourishes the skin.**

✓ **It is anti-aging with antioxidant content.**

✓ **It shapes the body with its slimming and tightening effects.**

✓ **It is effective against cellulite.**

✓ **It helps prevent crack formation.**

✓ **It can be used easily on sensitive skin.**

✓ **It helps repair skin damage caused by the sun.**

✓ **It helps prevent acne formation on the body and supports treatment for acne skin.**

✓ **It supports weight loss by shaping the body.**

✓ **It is ideal for daily body care.**

Vanillyl Butyl Ether: It creates a long-lasting and gentle warming sensation on the skin; accelerates the burning of subcutaneous fat, increases its temperature and promotes microcirculation, thus helping to slim the body. Substances known to give a warming sensation when applied are called warming substances and red pepper (capsicum) is frequently used in this regard, but its side effects can be; skin irritation, burning, itching. Vanillyl Butyl Ether, on the other hand, offers a softer and more comfortable warming effect.

Rosmarinus Officinalis Leaf Extract: It is a powerful antioxidant. It helps accelerate blood circulation and prevent cellulite formation. Rosmarinic acid, the main ingredient in rosemary leaf extract, is a powerful calming agent for skin conditions such as eczema and acne. It is also effective against blemishes.

Coleus Forskohlii Root Extract: In topical applications, it offers slimming, firming and anti-cellulite effects. Forskolin also helps delay skin aging by reducing oxidative damage.

Caffeine: With its powerful antioxidant effect, it protects the skin from free radical damage and prevents premature aging. When used topically, caffeine stimulates enzymes that break down fats and helps break down fats. It is effective against cellulite. It helps prevent crack formation. When applied with massage, it shapes the body and provides a fit appearance.

Tocopheryl Acetate: It is the stable form of Vitamin E. It protects cell membranes from free radical damage with its strong antioxidant effect. It helps prevent premature aging of the skin caused by UV radiation and lipid peroxidation.

Citrus Grandis Extract: When applied topically, it protects the skin from environmental free radical damage. It can also help reverse damage already done to the skin. It renews, nourishes and firms the skin. It is antibacterial. It also helps prevent acne.

Prunus Amygdalus Dulcis Oil: It is a softening plant oil obtained from almonds. It contains beneficial fatty acids that nourish the skin (oleic acid - 55-86% and linoleic acid 7-35%) and antioxidant vitamin E.

It has excellent softening and moisturizing properties. It nourishes, renews and soothes the skin.

Aloe Barbadensis Leaf Juice: Contains beneficial bioactive compounds consisting of vitamins, minerals, amino acids and antioxidants. It repairs, moisturizes, soothes and helps rejuvenate the skin.

Aesculus Hippocastanum Extract: It contains the active ingredient aescin, which helps maintain healthy blood circulation and strengthens capillaries. The extract is also rich in a number of flavonoids, such as quercetin and kaempferol derivatives. Flavonoids also have protective effects on blood vessels and are well-known powerful antioxidants. It offers anti-aging effects.
