About US

Arex Detergent operates with the goal of bringing together trust, quality, and affordability in the cleaning products sector. Arex is a registered brand of AHN Kimya and was established based on many years of accumulated knowledge and industry experience.

Since its foundation, our company has adopted customer satisfaction as a core principle and provides innovative, effective, and sustainable cleaning solutions tailored to the needs of both individual and corporate users. Our products are developed with environmentally responsible formulations, aiming to deliver high cleaning performance, superior hygiene, and long-lasting freshness with every use.

With our wide product range addressing diverse areas of application, we prioritize quality, reliability, and continuity at every stage from production to delivery.

Mission & Vision

As Arex Detergent, our mission is to develop innovative and environmentally responsible cleaning products based on quality, trust, and customer satisfaction, and to provide our users with high-performance and sustainable solutions.

Our vision is to become a globally preferred brand in the cleaning sector through an innovative approach and eco-friendly production philosophy, and to achieve a leading position that makes a difference in the industry through quality and innovation.

Our Values

- **Customer Satisfaction:** We prioritize our customers' expectations and needs, building trust-based and sustainable relationships.
- **Environmental Responsibility:** We develop products that respect nature and human health through an environmentally friendly production approach.
- **Sustainability:** By aiming for long-term success, we support economic, environmental, and social sustainability.
