GLOBAL HEALTHCARE FOR A MORE BEAUTIFUL LIFE

SOWON BIO

MISSION

"Make the world beautiful, people healthy" As a global beauty company in Korea, we provide the most innovative and reliable beauty solutions to our customers around the world through endless research using cutting-edge technology. Our mission goes beyond just providing beauty, it also creates the value of a healthy and sustainable life.

VISION

"Leading the future as a global beauty leader" Based on the latest technologies and trends in the beauty industry, it is safe and safe for customers around the world beyond Asia. It provides an optimal beauty experience.

CUSTOMER PROMISE

We will provide quality and service that exceeds our customers' expectations, and we will create trust and impression to all our customers based on sincerity, innovation, and sustainability.

A GLOBAL LEAP INTO THE WORLD

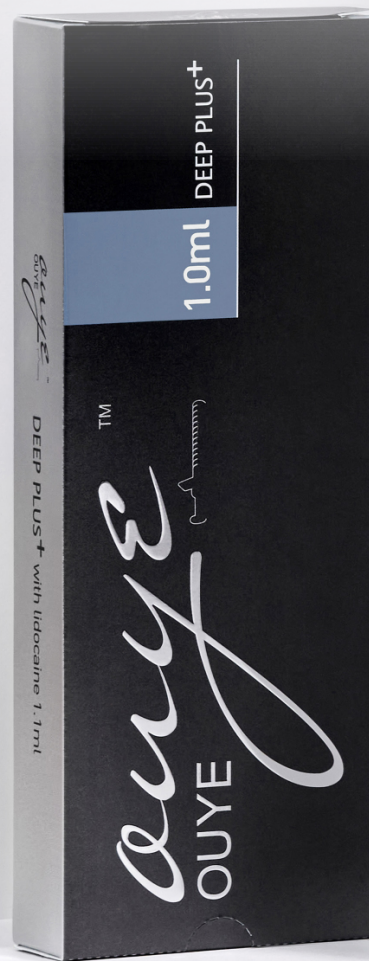

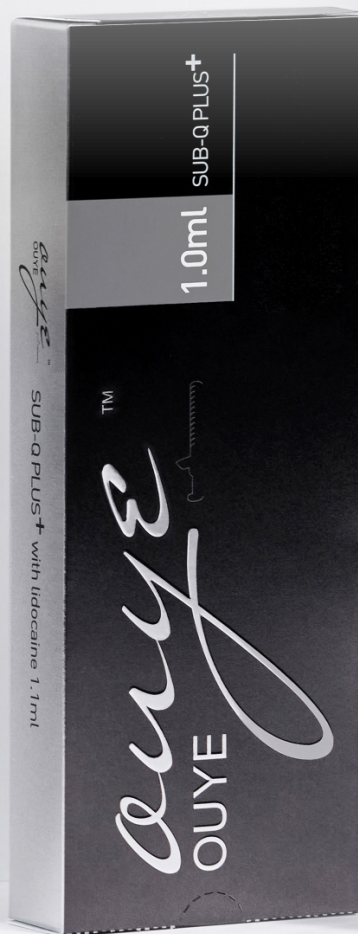

SOWON BIO

WORLDWIDE PARTNERSHIP

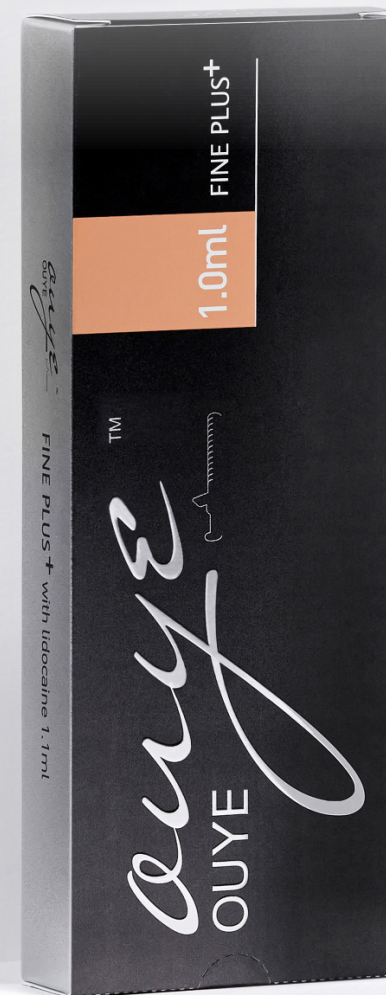

EUROPE ASIA MIDDLE EAST

As a Korean company that leaps forward to the world, SowonBio has achieved outstanding success in the fierce beauty industry through its commitment based on trust and focus on customer satisfaction. At present, the business has expanded to many countries, including the United Kingdom, China, Ireland, Turkey, Russia, Kazakhstan, Dubai, Vietnam, etc.

GLOBAL OUYE
CE-Certified Hyaluronic Acid Filler

GLOBAL OUYE FILLER

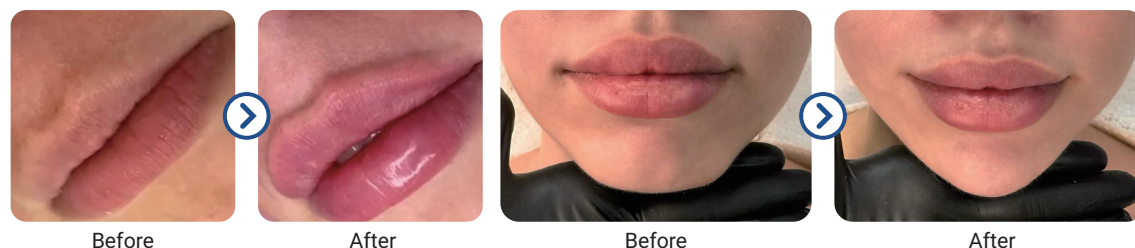

HA FILLER

Products that meet global quality standards through CE certification and have been recognized for their safety and reliability.

- GLOBAL OUYE FILLER
- 1.0ml x 1syr, 2 Needles

Before & After

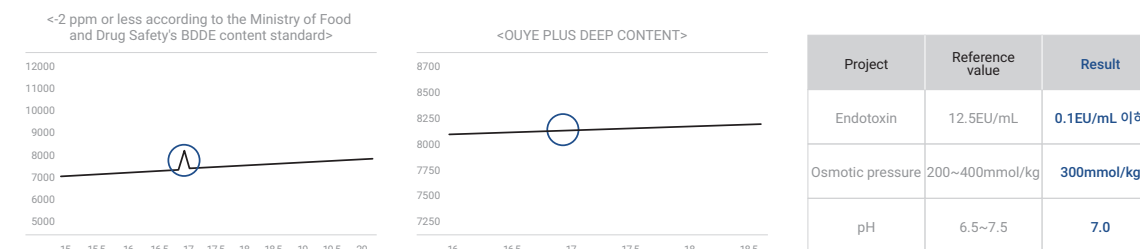

CERTIFICATE

RELIABLE OUYE FILLER

ENHANCED REFINING PROCESS

Global Ouye filler is a cleaning method that is differentiated from long-term cleaning, and the probability of side effects is minimized by reaching below the detection limit of BDDE residue.

PRODUCT INFORMATION

Product name	Global OUYE SUB-Q	Global OUYE DEEP	Global OUYE FINE
Gel Type			
Main Ingredient	Hyaluronic acid 24mg/ml, Lidocaine 0.3%		
Packing Unit	1.0ml		
Purpose of Use	Volume, contour	Deep wrinkles, volume	Fine Lines Improvement
Injection Depth	Subcutaneous	Mid, Deep dermis	Mid dermis
Recommended use area	Nasolabial folds, chin, nose, body line	Nasolabial folds, corners of the mouth, nose, cheeks plank, forehead,	Wrinkles around the eyes, charm skin, lips
Retention Period	Over 12 months	6~12 months	3~6 months
Viscoelasticity	300~500pa·s	200~300pa·s	100~200pa·s

OUYE FILLER

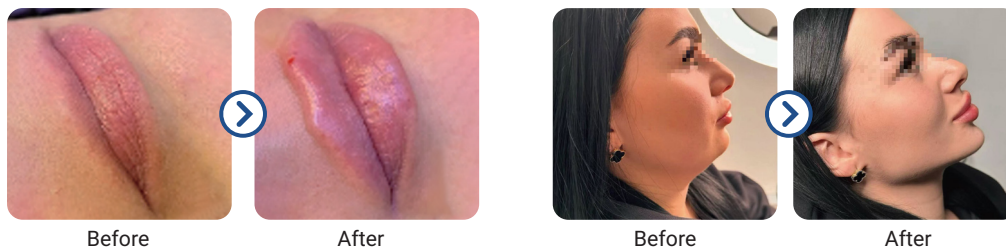

HA FILLER

The beginning of the perfect line with OUYE monophasic filler

- OUYE FILLER
- 1.1ml x 1syr, 2 Needles

Before & After

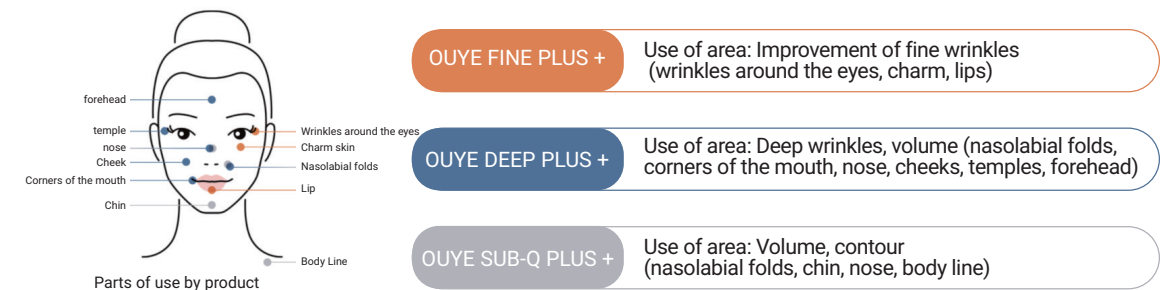

PERFECT MONOPHASIC FILLER OUYE

COMPARISON WITH MONOPHASIC AND BIPHASIC

Type	Monophasic	Biphasic	OUYE Monophasic (Perfect Monophasic)
Shape	Gel Shape	Particle Shape	Gel Shape
Viscoelasticity	Low elasticity and high viscosity	High elasticity and low viscosity	Patented UHD special manufacturing method Through elasticity and viscosity
Feature	High viscosity and injected with gel type It is less likely to deviate from the part, but the elasticity is low, so the volume is less and it is well spread.	The elasticity is high, and the voluminous feeling is good Low viscosity at the injection site There is a possibility of deviation.	With patented UHD manufacturing method It is produced, and elasticity is high, and a voluminous feeling. It keeps its shape well, and also it is highly viscous, so at the injection site. There is less chance of churning.
Similar fillers	Juve**	Resty**

SMICHAE FILLER

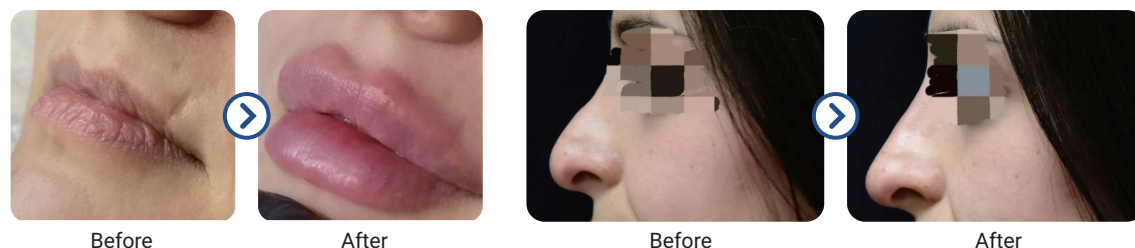

HA FILLER

Boasting high stability through FDA-approved high-quality hyaluronic acid and 15-day purification process.

- SMICHAE FILLER
- 1.1ml x 2syr, 4 Needles

Before & After

ADVANTAGES OF SMICHAE FILLER

Safety of raw material

SMICHAE FILLER uses high-quality hyaluronic acid, which is registered with the US FDA and CEP certified by EDQM. No animal-derived media or enzymes are used in the manufacturing process, reducing the risk of allergic reactions and viral infections

Safety in the manufacturing process

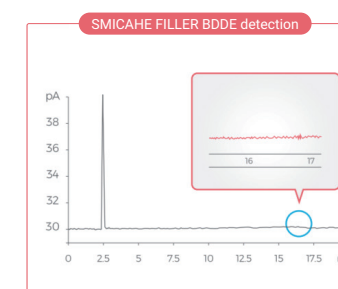

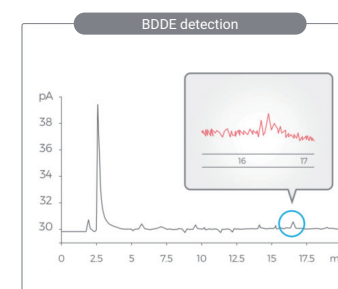

SMICHAE FILLER minimizes BDDE residues through a 14~15-day purification process and minimizes allergic reactions by removing impurities such as endotoxin and protein.

Purification 14~15 DAYS

By removing BDDE residues and impurities using osmotic effect It is safer to use.

BDDE DETECTION (GC GAS CHROMATOGRAPHY ANALYSIS)

GC analysis shows changes in the detection signal over time, with some compounds forming unique peaks at specific times. Normally, BDDE is detected between 16~17 minutes, but no changes in the BDDE detection signal or peak formation were observed in the Smichae filler.

ITEM	SMICHAE FILLER	A	2B
BDDE (PPM)	<0.1	0.5	<2
Endotoxin (EU/mL)	<0.5	0.5	0.2

PREMIUM FILLERS FOR EYE AREA & BACK OF HANDS

IMPROVES DARK CIRCLES & UNDER-EYE VOLUME

Reduces under-eye depression and dark circles for a natural and supple eye area

RESTORE THE VOLUME OF THE BACK OF YOUR HAND

Back of the hand skin volume up effect
Youthful and healthy hand skin expression

GENTLE INJECTION WITH SPECIAL PURIFICATION TECHNOLOGY

Filler particles are fine and uniform for smooth use, safe to use even in thin and nervous eye areas

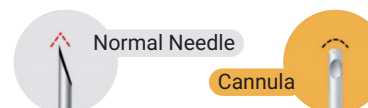

ALLERGY-FREE SAFE INGREDIENTS

Highly biocompatible, minimizing side effects
texture that blends naturally with the skin

RECOMMENDED USE AREA

PRECAUTIONS FOR USE

RECOMMENDED USE OF CANNULA

A cannula is a special thin instrument with a blunt tip, which can significantly reduce the risk of damage to blood vessels.

INFUSION METHOD

- Injection of the upper layer of the periosteum
- Slow Injection Technique
- Injection of the lower layer of orbital fat layer
- Microbolus Technique
- Trailing linear cannula injection
- Enhance face and back of hand volume

INNOVATION IN SKIN REGENERATION AROUND THE EYES, WITH MORE POWERFUL SMICHAE PN!

- Rejuvenate skin around the eyes & improve dark circles

- Soft and natural volume

- Minimal swelling and inflammation for faster recovery

- Effect lasting power UP, maintained for 12-18 months

- Safe ingredients for the eye area

DIFFERENCE BETWEEN POLYNUCLEOTIDE (PN) AND POLYDEOXYRIBONUCLEOTIDE (PDRN)

Classification	PN (Polynucleotide)	PDRN (Polydeoxyribonucleotide)
Definition	A broad concept of nucleic acid components containing a variety of nucleotides	As a type of PN, specific to DNA Composed of fragments (50~2000kDa).
Refining form	More refined and highly concentrated form	Less refined form
How it works	Powerful antioxidant, anti-inflammatory effects and promote collagen synthesis	DNA fragments stimulate cell growth (EGF, FGF, etc.) to induce cell regeneration
Effect duration	The effect lasts longer and can reach deeper layers.	Absorbed faster than PN and induces tissue regeneration in a short period of time.
Mode of action	Can be used on various areas such as the eye area, entire face, scalp, and hands	Mainly used for treating the face and damaged skin

PN (Polynucleotide)-containing eye filler provides superior tissue regeneration and natural volume effects compared to existing hyaluronic acid fillers.

Product Name	Packing Unit	Main Ingredients
SMICHAE PN EYE FILLER	1ml x 2syr	Hyaluronic Acid 20mg /PN(Polynucleotide/ Lidocaine 0.3% / Antioxidants / Vitamins

SMICHAE BODY FILLER

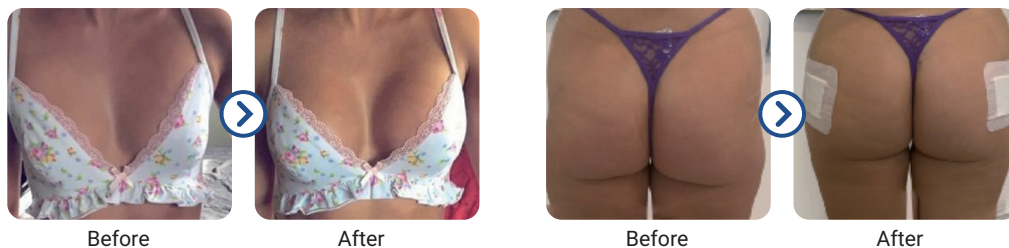

HA FILLER

Premium body volume solution, longer, more beauty

- SMICHAE BODY FILLER
- 10ml x 1syr

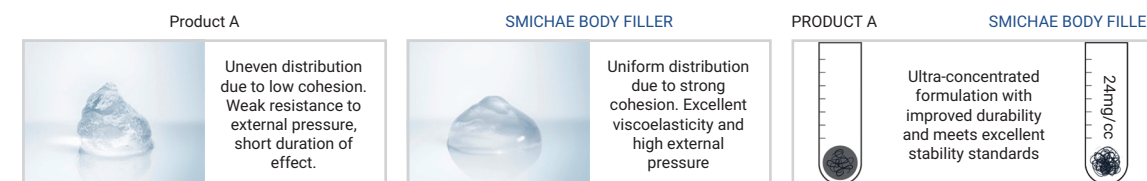

Before & After

STRENGTHS OF SMICHAE BODY FILLER

Next-generation body filler with safety, durability, and moldability
SMICHAE FILLER is a highly concentrated cross-linked hyaluronic acid filler with optimal viscosity and cohesion, and is optimized for creating natural and balanced body volume. Based on excellent sculpting power and durability, more sophisticated body shape improvement is possible.

FEATURES OF SMICHAE BODY FILLER

PRODUCT INFORMATION

Product name	SMICHAE BODY FILLER
Packing Unit	10ml/1Syr
Main Ingredients	24mg/ ml cross- linked Hyaluronic Acid
Purpose of Use	Hip-up, hip-dip improvement, breast volume increase, volume reduction area supplementation and body contouring

SMICHAE F

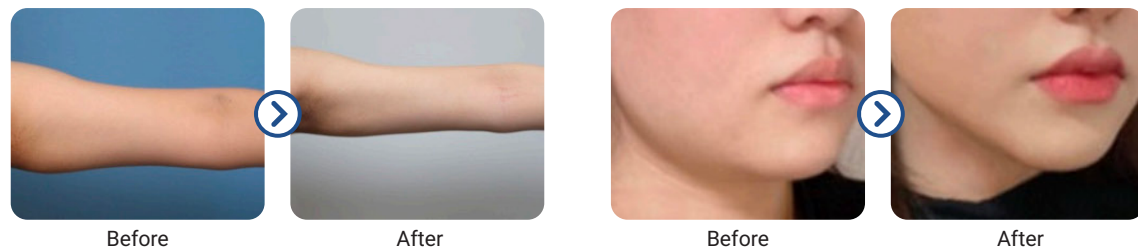

FAT DISSOLVER

Premium solution for powerful fat dissolve + elasticity improvement!

- SMICHAE F
- 2.0ml x 10Vials

Before & After

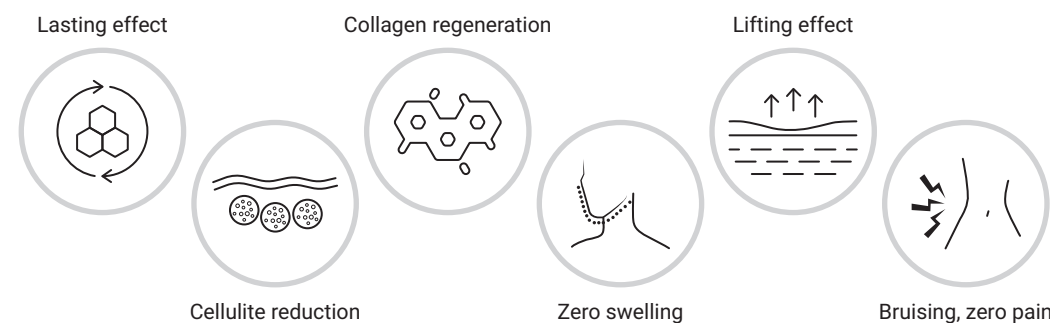

THE POWER OF NATURE FOR HEALTH AND ELASTICITY

Fuchsia Cellulite Improvement & Skin Tone Evenness	Papaya Contains vitamins A and E for moisturizing & antioxidant effects, natural enzymes promote exfoliation & wound healing
Sodium chloride Vasodilation & Activation of blood circulation	
Anemone Antibacterial, detoxifying effect & skin elasticity enhancement	Blackthorn Prevents skin damage caused by air pollution and ozone
Walnuts Improves blood circulation & removes dead cells	Chestnut Improves blood circulation & strengthens blood vessel elasticity

A SMOOTH AND POWERFUL SOLUTION FOR PERFECT LINES

SMICHAE F is a premium painless fat dissolving injection verified by Korean dermatologists. It effectively reduces fat and improves skin elasticity with just one treatment, reducing fat cells by up to 89%.

PRODUCT INFORMATION

Product name	SMICHAE F
Packing Unit	2ml x 10Vial
Main Ingredients	Plant extracts: Fuchsia, Anemone, Papaya, Sodium Chloride, Walnut, Blackthorn, Chestnut Active ingredients: Sodium deoxycholate 0.07% – Decomposes fat cell membranes Phosphatidylcholine 0.05% – Emulsifies fat and lymphatic drainage Aminophylline 1.5% – Promotes lymphatic circulation & diuretic action Hyaluronidase 0.3% – Reduces swelling & anti-inflammatory effect

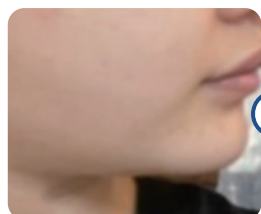

BABY FACE AMPOULE BODY / FACE FAT DISSOLVER

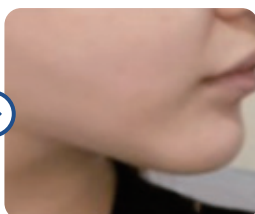

Complete a firm body by permanently destroying fat cells and regenerating collagen

LIMITATIONS OF EXISTING PRODUCTS

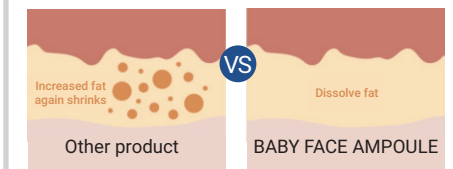

Most products on the market work by temporarily reducing the size of fat and then excreting it. Over time, the fat will return to its original size.

➔ It is difficult to achieve a lasting effect and requires repeated use, which is inconvenient.

DIFFERENCES OF BABY FACE AMPOULE

It works by directly breaking down and discharging fat. It takes effect within 3-4 days, providing quick satisfaction. It is effective in discharging fat from areas that are difficult to remove through diet.

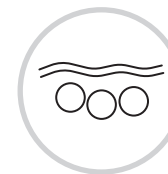

➔ Helps reduce fat with lasting effects, not temporary!

Lasting effects

Collagen regeneration, elasticity lifting

Cellulite reduction

No swelling and bruising

Zero pain

SAFETY AND QUALITY ASSURANCE

Completed clinical trials and sales verification for many years.
Proven stability products manufactured in ISO certified facilities
More reliable products with strict quality & distribution management.

➔ Safe and reliable choice, BABY FACE AMPOULE

PRODUCT INFORMATION

Product name	Baby Face Ampoule - Face	Baby Face Ampoule - Body
Main ingredients	Lipase, Bcaa, Adp, Atp	Lipase, Bcaa, Adp, Atp

Collagen Regenerating
SMICHAE PLLA 200/365mg

SMICHAEL PLLA 365mg

PLLA+CMC+HA

Experience elastic skin by promoting strong and reliable collagen regeneration

- SMICHAEL PLLA
- 365mg/1Vial

Before & After

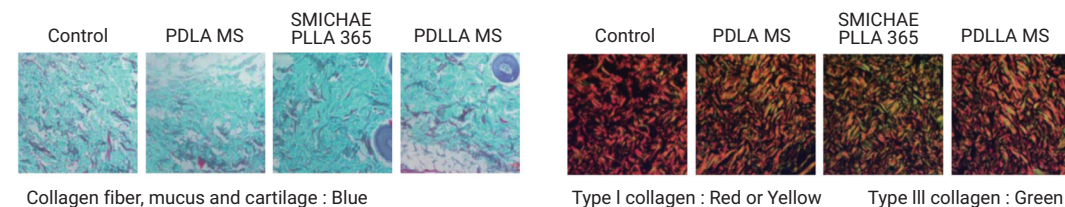

SUPERIOR COLLAGEN STIMULATOR PLLA 365

Comparisons with SMICHAEL PLLA 365 and PDLLA MS

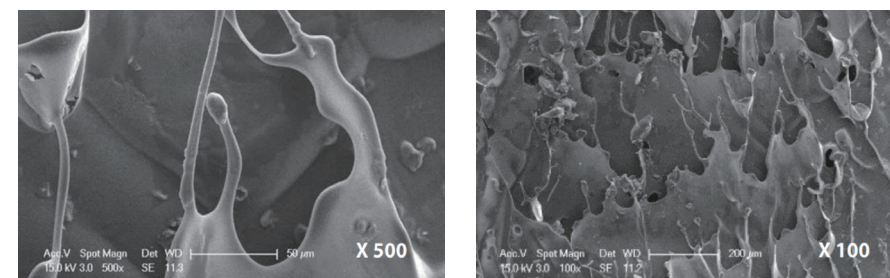

SMICHAEL PLLA 365 is a dermal filler material with lower cost, fewer side effects, better filling effect, and excellent collagen stimulating effect.

In addition, Smichae PLLA365 contains collagen and other substances that help in skin repair and collagen regeneration, and these substances can be slowly released through PLLA degradation to achieve better cosmetic effects.

SAFE COLLAGEN STIMULATOR SMICHAEL PLLA365

Smichae PLLA365 has the most obvious effect in promoting collagen regeneration and is very suitable for us as a dermal filler when compared to the other two chiral properties.

PRODUCT INFORMATION

Company name	SMICHAEL PLLA 365mg
Packing unit	365mg/1Vial
Main Ingredients	365mg Poly L Lactic Acid (PLLA) + 5mg CMC + 50mg HA
Purpose of use	It is ideal for patients over the age of 30 who are concerned about skin aging, skin blemishes, sagging, and areas prone to loss of volume.

SMICHAEL PLLA 200mg

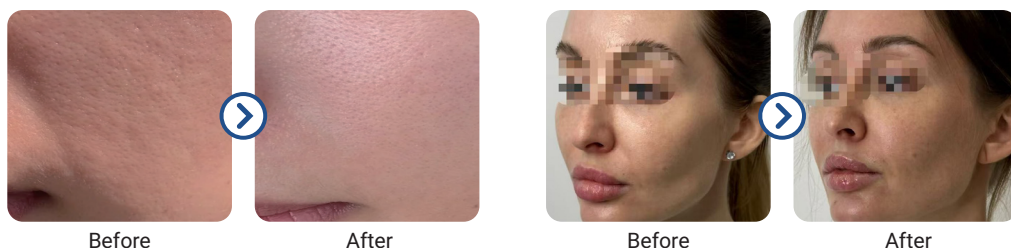

PLLA+CMC+HA

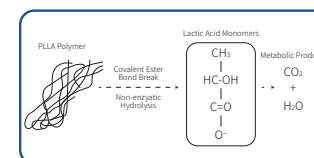

Powerful skin regeneration with safe collagen production stimulant

- SMICHAEL PLLA
- 200mg/1Vial

Before & After

PLLA (POLY-L-LACTIC ACID) - SAFE COLLAGEN PRODUCTION PROMOTER

- ✓ Induces collagen production to improve volume and reduce wrinkles.
- ✓ A safe ingredient that is naturally decomposed in the body.
- ✓ After decomposition, it is discharged as carbon dioxide (CO₂) and water (H₂O), and can be absorbed into the body.
- ✓ Biodegradable & biocompatible polymer to improve skin elasticity.

Physiochemical Characteristics of Poly-L-Lactic Acid (PLLA) Aesthetic Surgery Journal 2018, Vol 38(S1) S13-S17

SMICHAEL PLLA 200 IS A SPHERE TYPE PLLA WITH A CONSTANT AND UNIFORM SHAPE

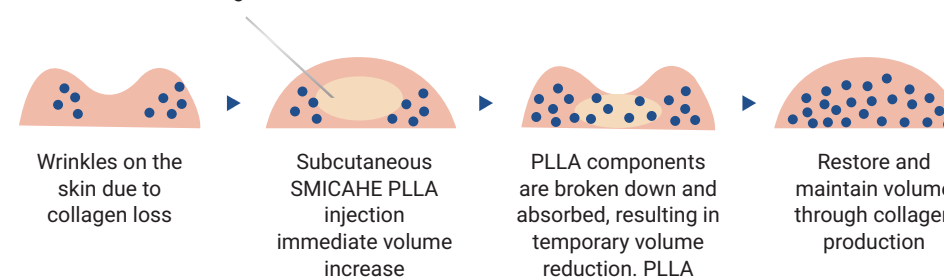

SMICHAEL PLLA is a sphere type PLLA that achieves a certain size and shape (30-50μm) to compensate for the structural shortcomings of existing PLLA fillers and ensure the effectiveness and safety of the product

PLLA particle structure SEM image (1), (3) in-house measurement data, (2) Safety and efficacy comparison of Polydioxanone, Poly-L Lactic Acid, and Polycaprolactone fillers

PLLA INDUCES SUSTAINED COLLAGEN PRODUCTION WHEN INJECTED INTO THE SKIN

SMICHAEL PLLA Collagen Production Process

PRODUCT INFORMATION

Product Name	SMICHAEL PLLA 200mg
Packing Unit	200mg/1Vial
Main Ingredients	200mg Poly L Lactic Acid (PLLA) + 5mg CMC + 50mg HA
Recommended Use	It is injected subcutaneously and used to temporarily improve facial wrinkles in adults through physical restoration.

SMICHAE PEELING With PN

35% TCA PEELING

SMICHAE PEELING, the beginning of a scientific solution that awakens the skin

- SMICHAE PEELING
- 6ml x 5Vial

Before & After

SMICHAE PEELING KEY INGREDIENTS

Squalene 
Prevents excessive sebum secretion and neutralizes active oxygen to prevent skin aging

Polynucleotide (PN) 
Promotes skin cell regeneration, induces collagen synthesis, improves skin elasticity, and has anti-inflammatory effects to soothe the skin and relieve irritation.

Amino Acids 
Strengthens the skin barrier to protect against external stimuli and provides cell energy to promote skin vitality.

Retinol 
Promotes collagen and elastin production to reduce wrinkles. Controls dead skin cells on the skin surface to maintain smooth skin texture. Prevents acne and troubles by controlling sebum secretion.

Vitamin B12 
Regulates melanin production to even out skin tone. Heals wounds and repairs damage. Prevents skin aging with antioxidant effects.

SMICHAE PEELING'S UNIQUE BLEND OF INGREDIENTS

Transparent Oil Layer

PN & Squalene and other regenerative ingredients suppress the decomposition of effective ingredients to maximize the effect. It forms an oil moisture barrier to protect the skin and maintains the peeling ingredients stably, providing a safe peeling effect without worrying about side effects.

Yellow Water Layer

AA layer containing amino acids, vitamin B12, and retinol ingredients in an optimal ratio, including AHA, BHA, and PHA, not only whitens the skin, but also works deep into the skin to activate and stimulate skin cells, providing an excellent improvement effect.

PRODUCT INFORMATION

Product name	SMICHAE PEELING
Packing unit	6ml x 5Vial
Main ingredients	Polynucleotides (PN), squalene, amino acids, retinol, vitamin B12, etc.
Recommended use area	Whole face and body

SMICHAE REFILO AMPOULE

SKIN BOOSTER

Elasticity + Whitening + Moisturizing, all-in-one skin booster

- SMICHAE REFILO AMPOULE
- 3ml x 10Vial

Before & After

SMICHAE REFILO MAIN INGREDIENTS

EXOSOME

Exosomes promote cell regeneration and improve elasticity by activating collagen production. They also strengthen the skin barrier and even out skin tone with their antioxidant and anti-inflammatory effects.

GLUTATHIONE

Glutathione protects the skin with its powerful antioxidant action and inhibits melanin production, improving skin tone to be bright and even.

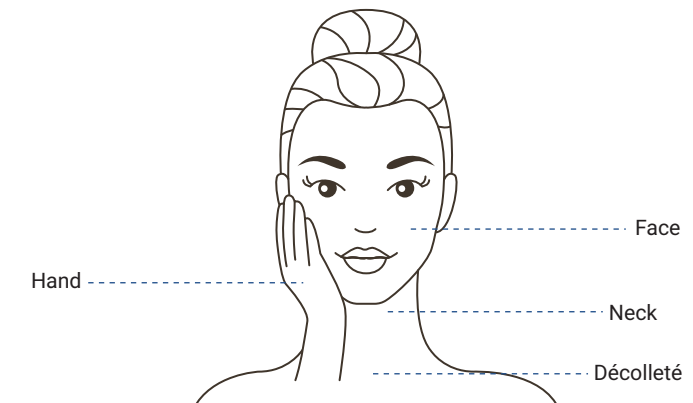

HYALURONIC ACID

Hyaluronic acid has a strong water-retaining ability, deeply moisturizing the skin and enhancing elasticity, helping to maintain healthy, hydrated skin.

NIACINAMIDE

Niacinamide brightens skin tone by regulating melanin production and strengthens the skin barrier to help moisturize and improve elasticity.

ADVANTAGES OF SMICHAE REFILO

Provides deep moisture to the skin

Strengthens the skin barrier with anti-inflammatory action

Promotes the production of 4 types of collagen

Restore volume and elasticity

PRODUCT INFORMATION

Product name	SMICHAE REFILO
Packing unit	3ml x 10Vial
Main ingredients	Exosomes, glutathione, niacinamide, hyaluronic acid, minerals, antioxidants
Recommended use area	Full face, hands, neck, collarbone

4UCOLLAFEEL

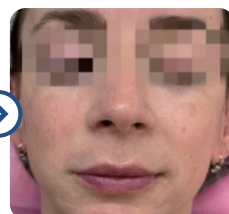

ATTELO COLLAGEN 3%

Skin confidence boosted by bio collagen

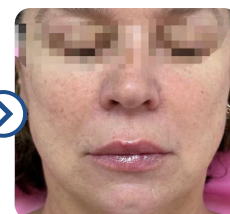

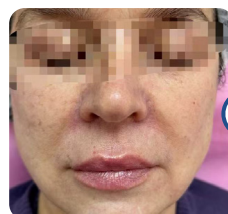

- 4UCOLLAFEEL
- 1ml x 1syr

Before & After

Before

After

Before

After

4UCOLLAFEEL'S UNIQUE ADVANTAGES

Solid holding power

Because it has high viscosity, loose skin tissue is firmly fixed after use and the contents do not move.

Excellent support

Because it is not easily deformed due to its high elasticity and support, it can create smoother lines or volume.

The property of not absorbing moisture

It does not have the property of drawing moisture from surrounding tissues, so it can create a more three-dimensional contour with less swelling after use, and it also has excellent hemostatic properties, so it is not easy to cause bruising and swelling after injection, and recovery is fast.

STABILITY OF 4UCOLLAFEEL

Pure, undenatured collagen
