NAD SILK PEPTIDE SKIN BOOSTER
5mL x 1 vial

Cellular Energy Revival

Replenishes vital NAD+ to reactivate the skin's fundamental energy and promote a healthy cellular turnover.

Instant Protein Lifting

Micro-sized silk peptides weave a tightening network to visibly lift and firm sagging facial contours.

High-Density Firming

Infuses essential amino acids to rebuild inner skin density and effortlessly smooth out fine lines.

Silky Moisture Radiance

Provides profound hydration, leaving the skin texture seamlessly smooth, deeply nourished, and radiant.

Protocol

Application Methods

NAD Silk Peptide is compatible with **Potenza (RF Microneedling), Injection, and Beauty Devices**, enabling customized skin revitalization across various aesthetic treatment modalities.

• Preperation

Cleanse the skin and perform a light exfoliation to ensure the protein nutrients can be absorbed without obstruction.

• Treatment

Apply the product and use an RF (Radio Frequency) device or manual lifting techniques, massaging in an upward direction to firm the skin.

• Finishing

Gently pat the remaining essence to form a protective silk protein layer and apply a finishing cream to seal the results.

* For optimal results, an initial course of 2~3 sessions at 1-month intervals is recommended, followed by maintenance treatments every 2~3 months.

Classification	Cosmetics
Packaging unit	5mL x 1 vial/box
Origin	South Korea
Storage method	Store at below 30°C, away from sunlight
Efficacy and effect	Instant lifting and visible firming by increasing dermal density.
